SM These platforms are necessary to reach Generation Z people born in the late 1990s. They are different and cannot be reached in the same way as they watch Netflix instead of TV or listen to Spotify instead of the radio. For example, Influencer marketing became a 10 billion industry in 2020. Influencers share their lives on SM networks. Due to their high reach, they receive offers from companies for cooperation. Influencers' followers admire and trust their recommendations due to their personal and authentic representation. While advertising products, influencers show how to use them, where to buy them, and give their opinion. For higher sales, influencers often receive promo codes for a discount or free products for each order.

Influencer Advertising versus Traditional Advertising, 2021-07-21. Master's Thesis from the year 2020 in the subject Communications Public Relations Advertising Marketing Social Media grade 1.0 Klagenfurt University language English abstract In the field of marketing, influencer promotions evolved to an established strategy to spread awareness about brands and to target potential customers. Especially the beauty industry utilizes the strategic communication approaches through the embeddedness of products into the creative content of influencers in order to persuade consumers. The purpose of this research paper is to examine the influencing power of those digital opinion leaders while comparing this potential with traditional print advertisements in magazines. In this process, particular focus has been laid on the perceived credibility of both marketing techniques applied on the luxury cosmetic market in Austria. Through a quantitative survey with paper and pencil questionnaires, data on attitudes and perceptions of 120 respondents could be gathered in Klagenfurt. Results of the study reveal that influencer advertisements are not automatically more influencing than traditional print advertisements. However, a positive pre attitude towards beloved influencers affects people to develop a more positive attitude towards brands and products that were advertised by social media opinion leaders. These findings suggest that luxury cosmetic brands should create a marketing mix that implements a complementary storytelling strategy between influencer promotions and print advertisements. Thereby, companies can target influencer followers as well as consumers of older generations to achieve a communication concept which attracts potential customers in a diversified way.

From the former Head of Brand Strategy at Reddit comes a proven and thought-provoking approach to the digital economy and how brands can create authentic engagement that is rooted in the fundamental motivations behind human psychology. Leading marketing practitioner and thought leader Joe Federer draws on evolutionary biology, anthropology, neuroanatomy, and psychology, as well as more than a decade of hands-on experience to explain why people act so differently in various online spaces and what they are seeking from participating in each one. With a framework based on Freud's Id, Ego, and Superego model of the human psyche, he demonstrates how the internet is a digital reflection of the collective human psyche and how different social networks correspond to different mindsets. Platforms like Reddit to the unfiltered Id, Facebook and Twitter to the managed Ego, and Instagram to the ideal Superego. In the same way you behave differently when you're home alone, out with friends, communicating with family, or interacting with coworkers, people act and express themselves differently in these various online spaces. Context matters. Understanding this will enable you to develop and execute effective engagement strategies to reach your target audiences on each social network. Learn how to create content that drives sharing and word of mouth, how brands can fit natively into different types of social channels, how to balance branded social presences across different networks, why authenticity will only grow in importance to consumers, and more. Fascinating and deeply compelling, *The Hidden Psychology of Social Networks* will equip you to make vastly more efficient use of your media buys, establish more thoughtful strategies, develop better creative, and, in the end, deliver more effective marketing that provides value.
