**Wagner's Most Subtle Art** Roger North,1996      Wagner's Most Subtle Art Roger North,1999      **Richard Wagner** Michael Saffle,2010-06-10 Richard Wagner A Research and Information Guide is an annotated bibliography concerning both the nature of primary sources related to the composer and the scope and significance of the secondary sources which deal with him his compositions and his influence as a composer and performer      **Historical Dictionary of Opera** Scott L. Balthazar,2013-07-05 Opera has been around ever since the late 16th century and it is still going strong in the sense that operas are performed around the world at present and known by infinitely more persons than just those who attend performances On the other hand it has enjoyed periods in the past when more operas were produced to greater acclaim Those periods inevitably have pride of place in this Historical Dictionary of Opera as do exceptional singers and others who combine to fashion the opera whether or not they appear on stage But this volume looks even further afield considering the cities which were and still are opera centers literary works which were turned into librettos and types of pieces and genres While some of the former can be found on the web or in other sources most of the latter cannot and it is impossible to have the whole picture without them Indeed this book has an amazingly broad scope The dictionary section with about 340 entries covers the topics mentioned above but obviously focuses most on composers not just the likes of Mozart Verdi and Wagner but others who are scarcely remembered but made notable contributions Of course there are the divas but others singers as well and some of the most familiar operas Don Giovanni Tosca and more Technical terms also abound and reference to different genres from antimasque to zarzuela Since opera has been around so long the chronology is rather lengthy since it has a lot of ground to cover and the introduction sets the scene for the rest This book should not be an end but rather a beginning so it has a substantial bibliography for readers seeking more specific or specialized works It is an excellent access point for readers interested in opera      **Musical Structures in Wagnerian Opera** Marshall Tuttle,2000 This monograph presents original research based on Wagner s theoretical writings and demonstrates that there is a precise logic to his tonal structures      *Opera* George Henry Hubert Lascelles Earl of Harewood,1999      The British National Bibliography Arthur James Wells,2000      **Current Contents, April 12, 1999** ,1999      **Bayerische Bibliographie 1996, , Bayerische Bibliographie 1999, ,**      The Dial ,1905      *Harper's Weekly* John Bonner,George William Curtis,Henry Mills Alden,Samuel Stillman Conant,Montgomery Schuyler,John Foord,Richard Harding Davis,Carl Schurz,Henry Loomis Nelson,John Kendrick Bangs,George Brinton McClellan Harvey,Norman Hapgood,1907      **Bayerische Bibliographie** ,1999      **Die Musik in Geschichte und Gegenwart** ,2007      **Musical Opinion and Music Trade Review** ,1911      **The Musical Standard** ,1883      The New Encyclopaedia Britannica ,1982      *The New Encyclopaedia Britannica: Macropaedia (19 v.)* ,1983      The New Encyclopædia Britannica: Macropaedia Encyclopaedia Britannica, Inc,1988      The New Encyclopædia Britannica ,2002
