Walden Or Life in the Woods
H. D Thoreau,2022-03-27 Walden or Life in the Woods By Henry David Thoreau Walden is a book by transcendentalist Henry David Thoreau The text is a reflection upon simple living in natural surroundings The work is part personal declaration of independence social experiment voyage of spiritual discovery satire and to some degree a manual for self reliance First published in 1854 Walden details Thoreau s experiences over the course of two years two months and two days in a cabin he built near Walden Pond amidst woodland owned by his friend and mentor Ralph Waldo Emerson near Concord Massachusetts Thoreau used this time July 4 1845 September 6 1847 to write his first book A Week on the Concord and Merrimack Rivers The experience later inspired Walden in which Thoreau compresses the time into a single calendar year and uses passages of four seasons to symbolize human development The book can be seen as performance art a demonstration of how easy it can be to acquire the four necessities of life Once acquired he believed people should then focus their efforts on personal growth By immersing himself in nature Thoreau hoped to gain a more objective understanding of society through personal introspection Simple living and self sufficiency were Thoreau s other goals and the whole project was inspired by transcendentalist philosophy a central theme of the American Romantic Period Thoreau makes precise scientific observations of nature as well as metaphorical and poetic uses of natural phenomena He identifies many plants and animals by both their

popular and scientific names records in detail the color and clarity of different bodies of water precisely dates and describes the freezing and thawing of the pond and recounts his experiments to measure the depth and shape of the bottom of the supposedly bottomless I went to the woods because I wished to live deliberately to front only the essential facts of life and see if I could not learn what it had to teach and not when I came to die discover that I had not lived I did not wish to live what was not life living is so dear nor did I wish to practice resignation unless it was quite necessary Walden Henry David

Thoreau, Francis H. 1866-1953 Allen, 2015-08-24 **Walden; Or, Life in the Woods** Henry David Thoreau, 2008-03-20

Walden details Thoreau's experiment with self-reliance living by a pond near Concord MA in 1845-46. His intent is to explore the spiritual benefits of a simplified life. The mass of men lead lives of quiet desperation. What is called resignation is confirmed desperation. From the desperate city you go into the desperate country and have to console yourself with the bravery of minks and muskrats. A stereotyped but unconscious despair is concealed even under what are called the games and amusements of mankind. There is no play in them for this comes after work. But it is a characteristic of wisdom not to do desperate things. When we consider what to use the words of the catechism is the chief end of man and what are the true necessities and means of life it appears as if men had deliberately chosen the common mode of living because they preferred it to any other. Yet they honestly think there is no choice left. But alert and healthy natures remember that the sun rose clear. It is never too late to give up our prejudices. No way of thinking or doing however ancient can be trusted without proof. What everybody echoes or in silence passes by as true to day may turn out to be falsehood to morrow mere smoke of opinion which some had trusted for a cloud that would sprinkle fertilizing rain on their fields.
