Walking To Guantanamo

Walking To Guantanamo:

Walking to Guantánamo Richard Fleming, 2008 First time author Fleming pens a compelling and entertaining account of his walk across Cuba Truth be told he didn't walk from Pinar del Rio to Guantanamo as he had envisioned but occasionally biked on the famous Chinese made Flying Pigeon or caught rides both motorized and animal powered He chronicles his travels in Cuba from several years ago around the time of the Elian Gonzalez incident given the state of the Cuban economy the lives of average Cubans have probably not changed drastically In addition to documenting his interactions with locals some revolutionary some not Fleming an avid birder includes lots of information on Cuban ornithology He discusses the practice of Santeria Palo Monte and Vodou and includes detailed descriptions of Cuban music another of his delights He focuses his wry modest prose on the country not himself as a traveler He is brutally honest even when it shows him in an unflattering light This is perhaps the most accurate and readable work on Cuba this reviewer has seen Lee Arnold Historical Society of Pennsylvania Philadelphia Copyright 2008 Reed Business Information [The Guantanamo Effect](#) Laurel Emile Fletcher, Eric Stover, 2009-09-01 This book based on a two year study of former prisoners of the U S government's detention facility at Guantnamo Bay Cuba reveals in graphic detail the cumulative effect of the Bush administration's war on terror Scrupulously researched and devoid of rhetoric the book deepens the story of post 9 11 America and the nation's descent into the netherworld of prisoner abuse Researchers interviewed more than sixty former Guantnamo detainees in nine countries as well as key government officials military experts former guards interrogators lawyers for detainees and other camp personnel We hear directly from former detainees as they describe the events surrounding their capture their years of incarceration and the myriad difficulties preventing many from resuming a normal life upon returning home Prepared jointly by researchers with the Human Rights Center University of California Berkeley and the International Human Rights Law Clinic University of California Berkeley School of Law in partnership with the Center for Constitutional Rights The Guantnamo Effect contributes significantly to the debate surrounding the U S's commitment to international law during war time

Radical Pacifism in Modern America Marian Mollin, 2013-05-29 Radical Pacifism in Modern America traces cycles of success and decline in the radical wing of the American peace movement an egalitarian strain of pacifism that stood at the vanguard of antimilitarist organizing and American radical dissent from 1940 to 1970 Using traditional archival material and oral history sources Marian Mollin examines how gender and race shaped and limited the political efforts of radical pacifist women and men highlighting how activists linked pacifism to militant masculinity and privileged the priorities of its predominantly white members In spite of the invisibility that this framework imposed on activist women the history of this movement belies accounts that relegate women to the margins of American radicalism and mixed sex political efforts Motivated by a strong egalitarianism radical pacifist women rejected separatist organizing strategies and instead worked alongside men at the front lines of the struggle to construct a new paradigm of social and political change Their compelling

examples of female militancy and leadership challenge the essentialist association of female pacifism with motherhood and expand the definition of political action to include women's political work in both the public and private spheres. Focusing on the vexed alliance between white peace activists and black civil rights workers, Mollin similarly details the difficulties that arose at the points where their movements overlapped and challenges the seemingly natural association between peace and civil rights. Emphasizing the actions undertaken by militant activists, Radical Pacifism in Modern America illuminates the complex relationship between gender, race, activism and political culture, identifying critical factors that simultaneously hindered and facilitated grassroots efforts at social and political change. *Guantanamo's Child* Michelle

Shephard, 2010-02-18 A prize winning journalist tells the troubling story of Canadian Omar Khadr who has spent a quarter of his life growing up in Guantanamo Bay. Khadr was captured in Afghanistan in July 2002 at the age of 15. Accused by the Pentagon of throwing a grenade that killed U.S. soldier Sgt First Class Christopher Speer, Khadr faces charges of conspiracy and murder. His case is set to be the first war crimes trial since World War II. In *Guantanamo's Child* veteran reporter Michelle Shephard traces Khadr's roots in Canada, Pakistan and Afghanistan, growing up surrounded by al Qaeda's elite. She examines how his despised family, dubbed Canada's First Family of Terrorism, has overshadowed his trial and left him alone behind bars for more than five years. Khadr's story goes to the heart of what's wrong with the U.S. administration's post 9/11 policies and why Canada is guilty by association. His story explains how the lack of due process can create victims and lead to retribution and instead of justice fuel terrorism. Michelle Shephard is a national security reporter for the Toronto Star and the recipient of Canada's top two journalism awards. You will be shocked, saddened and in the end angry at the story this page turner of a book exposes. I read it straight through and Omar Khadr's plight is one you cannot forget. Michael Ratner, New York President of the Center for Constitutional Rights, Michelle Shephard's richly reported, well written account of Omar Khadr's trajectory from the battlefields of Afghanistan to the cells of Guantanamo is a microcosm of the larger war on terror in which the teenaged Khadr either played the role of a jihadist murderer or tragic pawn or perhaps both roles.
