## **Redesign Your Library Website**

Stacy Ann Wittmann, Julianne T. Stam, 2016-05-16 A comprehensive guide for all sizes of libraries, this book guides you through the entire process of effectively redesigning your library's website from evaluating your current site and understanding user needs to creating a budget through to launching and maintaining your updated site. For today's increasingly web-savvy patrons, your library's website is a critical aspect of your services and user experience. If it's time for a website makeover for your library, this book will take you through the process step by step, sharing lessons learned and pointing out pitfalls to avoid. The end result: You'll delight your patrons with easy-to-find information, wow your director with an easy-to-use content management system (CMS) and impress your board with a website that clearly communicates your library's value. Written by two veterans of the process who have presented workshops on this topic, this book covers the entire process of library website redesign from evaluating your current website to making the decision of whether to hire a web developer or do it in-house to usability testing. It also addresses budgeting, making content and design decisions, the launching process, marketing and upkeep of your new site

## **Navigation Design and SEO for Content-Intensive Websites**

Mario Pérez-Montoro, Lluís Codina, 2016-08-21 *Navigation Design and SEO for Content-Intensive Websites: A Guide for an Efficient Digital Communication* presents the characteristics and principal guidelines for the analysis and design of efficient navigation and information access systems on content intensive websites such as magazines and other media publications. Furthermore, the book aims to present the tools of information processing including information architecture (IA) and content categorization systems so that such designs can ensure a good navigation experience based on the semantic relations between content items. The book also presents best practices in the design of information access systems with regard to their main structures including search query forms and search result pages. Finally, the book describes the foundations of search engine optimization (SEO) emphasizing SEO oriented to publications focused on communication and the coverage of current affairs including images and videos. Focuses on the newly emerging and significant sector of content characterized by its use of multimedia text, image and video. Presents comprehensive coverage of sites and their combined information architecture.
