Walking with Spring Earl Victor Shaffer, 2000 The author s account of his four month hike in 1948 of the entire length of the Appalachian Trail

In Beauty May She Walk Leslie Mass, 2005 In 2000 inspired by her father Leslie Mass decided she would turn a lifelong fantasy into reality At the age of 59 she began to train for a grueling journey a thru hike of the 2 000 mile Appalachian Trail In *Beauty May She Walk* chronicles Leslie s struggles and triumphs during her hike On the trail Leslie struggles with how to balance the needs of her family and friends while

making the trail a priority how to shed years of social conditioning that dictate how a woman should act and how to know when to ask for help while understanding that sometimes help has to come from within For the first few weeks Leslie learns how to pitch a tent in the rain keep animals out of her food and lighten the load on her back As the terrain toughens she struggles to physically keep up with the trail community she depends on socially to keep going and realizes the difficulty of maintaining her obligations to family and friends while focusing her efforts on putting one foot in front of the other every day And after September 11 2001 she copes with being seemingly the only hiker on the trails for miles eventually forcing her to change her definition of hiking her own hike A suburban college professor Leslie is just like any other woman you might pass on the grocery aisle Her story is an inspiring physical and mental journey to reach the goal of a lifetime *Long-Distance Hiking: Lessons from the Appalachian Trail* Roland Mueser, 1997-11-22 Blending sage advice with personal experiences and anecdotes this unconventional book is an unusually thoughtful account of long distance trekking on the Appalachian Trail Mueser draws upon interviews and questionnaire data gathered from over 100 long distance hikers hoofing it through the Appalachian Mountains **Hiking Through** Paul Stutzman, 2012-03-12 With breathtaking descriptions and humorous anecdotes from his 2 176 mile journey along the Appalachian Trail Paul Stutzman reveals how immersing himself in nature and befriending fellow hikers helped him recover from a devastating loss Hiking Appalachian Trail from Georgia to Maine Alan Greenfield, 2017-01-15 Hiking Appalachian Trail from Georgia to Maine 49 Day Challenge to Hike 12 Greatest Sections of A T It was 1994 on my 23rd birthday my father gave me an envelope which I figured would be a gift certificate for something outdoor or even a golf club coupon But to my surprise it was an airline ticket to Atlanta I was utterly confused looking at my face he knew I was but that confusion soon turned into a huge excitement when he said we are going to hike the Appalachian Trail in less than 50 days get ready son I was excited I asked him why he hasn't hiked this trail ever he said he always had the dream of hiking it with me in his word I saved the best for you That was a trip I will never forget I think to date that is one of most fun and the adventurous thing I have ever done We were able to finish it in 49 days too we both were very proud of each other Soon after that trip my dad was diagnosed with a severe case of arthritis even though the doctors said it was not because of that trip but they think it was too many hiking trips through many rough and rugged terrain that contributed to his condition He still hikes but we only take him to mini half day trails When I originally had the idea to write a guide book on how to hike on the great Appalachian Trail at first I thought I should just write it like a journal of what we did but then my father told me that might not help every reader He suggested I should write it like a guide book that can help anyone from a beginner to an advanced hiker this way we cover a broad range of hikers So this book is not about my hiking trips but yours my main focus in this book is to get you familiarized with the trail and get you prepared for it This book is truly a guidebook which is divided into 2 parts where I start off with some basic facts and information about the great Appalachian Trail then give my readers a clear overview of the trail in every region and state it crosses Next I talked about

how to get started on hiking the Appalachian Trail along with all different options like a day hike multi day hike and through hike Next I spoke about what to expect on the trail what kind of help and supports are out there what and how weather can affect your hiking what wild animals you have to be aware of Then I discuss how you can find sanitation restroom shower etc on the trail how to deal with various illness while on the trail Next up is how you should pack what gears you need how to plan a through hike and how to actually get started on this amazing trip In the second part of the book I share how to hike each section day by day and what you can expect what you need to be looking for what you need to be aware of one each section of your hike After hiking through this great Appalachian Trail twice I can assure you it can be done and no it is not a monumental task but yes it will take effort and a strong willingness to go through with it I know if I could do it anyone can I know you can do it too Good luck Alan Greenfield

Grandma Gatewood Hikes the Appalachian Trail Jennifer Thermes, 2018-05-08 Emma Gatewood's life was far from easy. In rural Ohio she managed a household of 11 kids alongside a less than supportive husband. One day at age 67 she decided to go for a nice long walk and ended up completing the Appalachian Trail. With just the clothes on her back and a pair of thin canvas sneakers on her feet, Grandma Gatewood hiked up ridges and down ravines. She braved angry storms and witnessed breathtaking sunrises. When things got particularly tough, she relied on the kindness of strangers or sheer luck to get her through the night. When the newspapers got wind of her amazing adventure, the whole country cheered her on to the end of her trek, which came just a few months after she set out. A story of true grit and girl power at any age, Grandma Gatewood proves that no peak is insurmountable.

Footprints on the Mountains Dennis Heath Renshaw, 2019-10-21 Ten thousand hikers start the Appalachian Trail every year. Only ten percent finish. Whether you begin in Maine or Georgia, the trail is 2,186 miles long, filled with steep climbs, deep valleys, rivers to ford, wildlife, majestic views, strangers who become friends, and swollen, blistered feet. I began this trek at age 66 and hiked 91 mountain peaks, went through 14 states, 464 elevation changes (the equivalent of climbing Mt. Everest 25 times). Along the way, I acquired the trail name Preacher, carried a 43-pound backpack, lost 25 pounds, got lost three times, and wore out seven pairs of boots. Many who start the trail are in a life turning point and seek spiritual guidance from the awesome wonder of the mountain peaks, sunsets, running rivers, and sunrises that offer beauty and peace. Or they may seek a voice to share some solace or an ear to listen. As I was called Preacher, some came seeking counsel. I started the journey as a challenge to myself, but I found much more when I experienced God's footprints already on the mountains. I'm sharing my experiences to help others who choose to
