how we can tailor policies to address what really matters student understanding of content In sharing lessons anecdotes and cautionary tales from his own experiences revamping assessment procedures in the classroom Dueck offers a variety of practical strategies for ensuring that grades measure what students know without punishing them for factors outside their control critically examining the fairness and effectiveness of grading homework assignments designing and distributing unit plans that make assessment criteria crystal clear to students creating a flexible and modular retesting system so that students can improve their scores on individual sections of important tests Grading Smarter Not Harder is brimming with reproducible forms templates and real life examples of grading solutions developed to allow students every opportunity to demonstrate their learning Written with abundant humor and heart this book is a must read for all teachers who want their grades to contribute to rather than hinder their students success
