Influence of University Rankings on Institutions: Ethics, Controversies, and Competition Kayyali, Mustafa, 2025-10-16 The influence of university rankings on higher education institutions reveals ethical concerns controversies and increased global competition As rankings become a measure of academic prestige many universities align their strategies with ranking criteria sometimes at the expense of educational values This pursuit of higher rankings often drives institutions to invest in research output and international visibility while potentially neglecting teaching quality or community engagement Criticisms emerge over the transparency and fairness of ranking methodologies raising questions about their validity and the consequences they produce Further exploration into the ethical implications of rankings may reveal new contentious practices and competitive dynamics shaped by the prioritization of university rankings *Influence of University Rankings on Institutions Ethics Controversies and Competition* explores how the pursuit of higher university rankings influences institutional priorities behaviors and decision making processes It examines the ethical dilemmas methodological controversies and competitive pressures that arise from global ranking systems This book covers topics such as mental health teacher education and ethics and bias and is a useful resource for educators policymakers government officials psychologists academicians researchers and scientists

The Idea of the University Debaditya Bhattacharya, 2018-09-03 What is this idea of the university Why does it need to be defended Does the work of defense preclude the task of rearranging the idea itself Drawing on these essential questions this volume traces the historical transformations of the university in medieval Europe and explores current debates on its existence and sustenance in a neoliberal India It challenges the liberal humanist ideal of academic exchange to inquire into long befuddled debates on the true nature of the modern university Along with its companion *The University Unthought Notes for a Future* this brave new intervention makes a compelling foray into the political future s of the university It will be of interest to academics educators and students of the social sciences and humanities especially education It will also be of use to policy makers and education analysts and central to the concerns of any citizen

Universities and the Occult Rituals of the Corporate World Felicity Wood, 2018-04-17 *Universities and the Occult Rituals of the Corporate World* explores the metaphorical parallels between corporatised market oriented universities and aspects of the occult In the process the book shows that the forms of mystery mythmaking and ritual now common in restructured institutions of higher education stem from their new power structures and procedures and the economic and sociopolitical factors that have generated them Wood argues that universities have acquired occult aspects as the beliefs and practices underpinning present day market driven academic discourse and practice weave spells of corporate potency invoking the bewildering magic of the market and the arcane mysteries of capitalism thriving on equivocation and evasion Making particular reference to South African universities the book demonstrates the ways in which apparently rational features of contemporary Western and westernised societies have acquired occult aspects It also includes discussion

of higher education institutions in other countries where neoliberal economic agendas are influential such as the UK the USA the Eurozone states and Australia Providing a unique and thought provoking look at the impact of the marketisation of Higher Education this book will be essential reading for academics researchers and postgraduate students engaged in the study of higher education educational policy and neoliberalism It should also be of great interest to academics in the fields of anthropology folklore and cultural studies as well as business economics and management
