*Financial Accounting* Paul D. Kimmel, Jerry J. Weygandt, Jill E. Mitchell, Barbara Trenholm, Wayne Irvine, Christopher D. Burnley, 2023-05-15 Provide future business professionals with a practical introduction to financial accounting. With its unique focus on building students' decision making skills and emphasis on financial statements, *Financial Accounting* 9th Canadian Edition meaningfully integrates data analytics and the importance of using accounting information in real world decision making. Adaptive practice opportunities and engaging real world industry examples strengthen student understanding of accounting concepts and illustrate how these are relevant to their everyday lives and future careers in business and accounting. An increased emphasis on Indigenous perspectives and environmental social and governance (ESG) issues serves as a first step in urging students to acknowledge their role as individuals, students and aspiring professionals in addressing societal inequities.

*The Lancet*, 1915 **Sustainable Ecological Engineering Design** Mohammad Dastbaz, Chris Gorse, 2016-05-19 This book focuses on the impacts of the built environment and how to predict and measure the benefits and consequences of changes taking place to address sustainability in the development and building industries. It draws together the best treatments of these subjects from the Leeds Sustainability Institute's inaugural International Conference on Sustainability, Ecology, Engineering Design for Society (SEEDS). The focus of discussion is on understanding how buildings and spaces are designed and nurtured to obtain optimal outcomes in energy efficiency and environmental impacts. In addition to examining technical issues such as modeling energy performance, emphasis is placed on the health and well-being of occupants. This holistic approach addresses the interdependence of people with the built and natural environments. The book's contents reflect the interdisciplinary and international collaboration critical to the assembly of the knowledge required for positive change.

We may live civility in society but our world is more dangerous than the jungle of prey and predators. As pillagers ourselves, we constantly engage in a purge by intimidation, stealthily stalking, stealing and marauding. We become both the hunter and hunted in an intractable game of chess in life. In this ode, Aarvan, the main protagonist, gets entrapped by the very people that is his own blood and close friends. The travesty of life is truly an antithesis of what in reality it actually is. Even forgiving is a victim on its own. Life is only one in its true avatar. We just get caught up in the cosmic karma of vicious cycle where redemption is only a notion.
