Tok Trending Goodreads Choice Ideas:

Making Books Alexis Burling, 2024-07-30 Books are a popular form of media and today it is easier than ever for people to write their own. This title explores the history of printing and publishing as well as the equipment, skills, challenges, and marketing strategies involved in writing and releasing books. It also looks at book publishing pathways including big name publishing companies, independent presses, and self-publishing services. Features include a glossary, references, websites, source notes, and an index. Aligned to Common Core Standards and correlated to state standards. Essential Library is an imprint of Abdo Publishing, a division of ABDO. *Pedagogical Opportunities of the Review Genre* Maarit Jaakkola, 2024-06-28 Pedagogical Opportunities of the Review Genre unleashes the pedagogical potential of the review genre, reframing the act of reviewing of cultural products as a communicative practice from a pedagogical perspective. Negotiating between traditions of journalism and media studies and pedagogy, the author presents a novel approach that will increase the readers' understanding of an activity that is on the increase in an era where everyone can be a critic. She identifies, describes, and develops genre-based pedagogies in formal, non-formal, and informal contexts of learning and teaching in order to recontextualize the review as a form of learning and rethink of its potential as an inclusive, engaging, and a transformative critical cultural practice. This innovative and truly interdisciplinary study will interest students and researchers in the areas of media literacy, digital media, media and communication studies, cultural studies, sociology of arts, and pedagogical studies in particular, cultural journalism and criticism, audience studies, cultural production, and cultural mediation, as well as critical media pedagogy and literacy studies. *Social Media Ethics and COVID-19* Berrin A. Beasley, Pamela A. Zeiser, 2022-11-04 Social Media Ethics and COVID 19 Well Being Truth Misinformation and Authenticity explores ways that some of the best and worst moments of the pandemic resulted from the interconnection of social media and ethics. The ethical challenges social media poses for corporate providers, government officials, and users existed well before the outbreak of COVID 19. What responsibility do corporate providers bear for inaccurate information posted by users? What responsibility do users bear? In this post-truth and polarized world, who defines accurate information? During the height of the COVID 19 crisis, public health agencies, emergency management agencies, and traditional news media used social media to disseminate or to track information, while users found communities for shared values or experiences. At the same time, users posted and amplified inaccurate or misleading scientific and health information, engaged in hate, and escalated conspiracy theories that have proven detrimental to the public health response to COVID 19. Edited by Pamela A. Zeiser and Berrin A. Beasley, this collection brings together work from leading scholars in communication, English, philosophy, and political science to examine the ethical use of social media during COVID 19, offering both a multidisciplinary understanding of the subject and tools for managing the challenges found at the intersection of social media ethics and COVID 19. **Trailer Triumph** Book Marketing Pro Press, 2025-10-28 Transform Your Book's Reach with Compelling Visual Storytelling.
