"*Throw the book away*" Amie A. Doughty, 2013-05-11 Children's literature is an excellent way to educate children on everything from social behavior and beliefs to attitudes toward education itself. A major aspect of children's literature is the importance of books and reading. Books represent adult authority. This book examines the role that books reading and writing play in children's fantasy fiction from books that act as artifacts of power The Abhorsen Trilogy The Spiderwick Chronicles Harry Potter to interactive books The Neverending Story Malice Inkheart to books with character writers Percy Jackson Captain Underpants The author finds that although books and reading often play a prominent role in fantasy for children the majority of young protagonists gain self sufficiency not by reading but specifically by moving beyond books and reading

Media and Translation Dror Abend-David, 2014-07-31 Over the last decade there has been a dramatic increase in publications on media and translation. In fact there are those who believe that so much has been published in this field that any further publications are superfluous. But if one views media and translation as anything ranging from film and television drama to news casting commercials video games web pages and electronic street signs it would seem that research in media and translation has barely scratched the surface. The research in this field is shared largely by scholars in communication and translation studies often without knowledge of each other or access to their respective methods of scholarship. This collection will rectify this lack of communication by bringing such scholars together and creating a context for a theoretical discussion of the entire emerging field of Media and Translation with a preference for theoretical work rather than case studies on translation and communications of various forms and through various media **Filming the Children's Book** Hermansson Casie Hermansson, 2018-12-19 Just as a work of self reflexive metafiction and the experience of reading it differ from other types of literature the work and the experience of viewing films that adapt metafiction are distinct from those of other films and from other film adaptations of literary works. This book explores the adaptation of children's metafictions including works such as Inkheart The Invention of Hugo Cabret and the Harry Potter series. Not only are the plot devices of books and reading explored on screen in these adaptations but so is the nature of transmedial adaptation itself the act of representing
