**Rethinking Techno-Politics in the Digital Age: Global Technology Relations and Security** Arslan, Alp Cenk,Tinas, Murat,2025-10-08 As digital technologies continue to grow in every facet of society rethinking techno politics in the digital age has become imperative to growth The intersection of technology and power is reshaping governance and raises the questions about control and accountability This evolving landscape calls for a reexamination of how policies are shaped who benefits from technological advancements and how democratic principles can be preserved in an increasingly data driven world Rethinking Techno Politics in the Digital Age Global Technology Relations and Security explores the rise of digital infrastructures the impact of new technologies on political and social culture and the strategic role of technology in global power dynamics This book fills a critical gap in the discourse surrounding technology s role in governance security and societal transformations Covering topics such as politics governance and technology this book is an excellent resource for academicians policymakers and technology professionals

**Value Co-Creation in Web 3.0** Robin Qiu,2026-01-01 This book explores the architecture and framework for co creating the most valuable and promising data in the future Internet often referred to as Web 3 0 from the end user s perspective Unlike the current platform economy where user s daily usage and activity data is predominantly held by individual organizations Web 3 0 advocates for decentralized data management across interconnected platforms This approach aims to fully utilize the vast amounts of data generated by the increasingly connected physical world The book explains how Web 3 0 can be developed with fundamental and technological support to enhance decentralized data management and maximize benefits for end users Additionally it presents two use cases to illustrate how value co creation can be achieved using Web 3 0 The book is aimed primarily at students from business and engineering schools It also serves as a valuable teaching resource for instructors in management information systems MIS information systems information science and technology and data and computing sciences Additionally professionals interested in digital transformation blockchain technology data analytics AI and digital economy policymaking will find it highly relevant

**Designing Instruction with Generative AI** Brent A. Anders,2025-09-16 Designing Instruction with Generative AI offers a novel set of tools and strategies for leveraging generative AI to create engaging and personalized learning experiences While instructional designers are a tremendous asset to higher education not all colleges or universities have the robust staff needed to support all instructors on staff or large student populations Drawing on a wealth of research professional experience and strategic insights this book equips new and seasoned teaching faculty and trainers with step by step directions on how freely accessible artificial intelligence software can assist with all aspects of the course creation and

instruction process and cater to the needs of diverse learners Each chapter offers forward thinking and empirically validated ways to help faculty create and improve instructional materials course design and learning environments while supporting their digital literacies Rather than introduce AI as a means of outsourcing subject area expertise critical thinking or cognitive processes the author instead emphasizes its potential to build on traditionally honed knowledge and foundational instructional design practices From optimizing course alignment and accessibility practices to fostering active learning motivation and engagement educators will find new solutions to common teaching and learning challenges with greater efficiency in time and capacity The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license
