The Translations of Seamus Heaney Seamus Heaney, 2023-03-21 The complete translations of the poet Seamus Heaney a Nobel laureate and prolific revolutionary translator Seamus Heaney's translation of Beowulf published in 1999 was immediately hailed as an undisputed masterpiece something imperishable and great James Wood The Guardian A few years after his death in 2013 his translation of Virgil's Aeneid Book VI caused a similar stir providing a remarkable and fitting epilogue to one of the great poetic careers of recent times Nick Laird Harper's Magazine Now for the first time the poet critic and essayist's translations are gathered in one volume Heaney translated not only classic works of Latin and Old English but also a great number of poems from Spanish Romanian Dutch Russian German Scottish Gaelic Czech Ancient and Modern Greek Middle and Modern French and Medieval and Modern Italian among other languages In particular the Nobel laureate engaged with works in Old Middle and Modern Irish the languages of his homeland and early education As he said If you lived in the Irish countryside as I did in my childhood you lived in a primal Gaeltacht In The Translations of Seamus Heaney Marco Sonzogni has collected Heaney's translations and framed them with the poet's own writings on his works and their composition sourced from introductions interviews and commentaries Through this volume we come closer to grasping the true extent of Heaney's extraordinary abilities and his genius

Public Medievalists, Racism, and Suffrage in the American Women's College Mary Dockray-Miller, 2017-11-13 This study part of growing interest in the study of nineteenth century medievalism and Anglo Saxonism closely examines the intersections of race class and gender in the teaching of Anglo Saxon in the American women's colleges before World War I interrogating the ways that the positioning of Anglo Saxon as the historical core of the collegiate English curriculum also silently perpetuated mythologies about Manifest Destiny male superiority and the primacy of northern European ancestry in United States culture at large Analysis of college curricula and biographies of female professors demonstrates the ways that women used Anglo Saxon as a means to professional opportunity and political expression especially in the suffrage movement even as that legitimacy and respectability was freighted with largely unarticulated assumptions of racist and sexist privilege The study concludes by connecting this historical analysis with current charged discussions about the intersections of race class and gender on college campuses and throughout US culture

The Literature of Waste S. Morrison, 2015-06-03 Tracing material and metaphoric waste through the Western canon ranging from Beowulf to Samuel Beckett Susan Signe Morrison disrupts traditional perceptions of waste to better understand how we theorize manage and are implicated in what is discarded and

seen as garbage Engaging a wide range of disciplines Morrison addresses how the materiality of waste has been sedimented into a variety of toxic metaphors If scholars can read waste as possessing dynamic agency how might that change the ethics of refusing and ostracizing wasted humans A major contribution to the growing field of Waste Studies this comparative and theoretically innovative book confronts the reader with the ethical urgency present in waste literature itself Slow Scholarship Catherine E. Karkov,2019 A powerful claim for the virtues of a more thoughtful and collegiate approach to the academy today This book offers a response to the culture of metrics mass digitisation and accountability as opposed to responsibility or citizenship that has developed in higher education world wide as exemplified by the UK s Research Excellence Framework exercise REF and the increasing bureaucracy that limits the time available for teaching research and even conversation and collaboration Ironically these are problems that will be solved only by academicsfinding the time to talk and to work together The essays collected here both critique the culture of speed in the neoliberal university and provide examples of what can be achieved by slowing down by reclaiming research and research priorities and by working collaboratively across the disciplines to improve conditions They are informed both by recent research in medieval studies and by the problematic culture of twenty first century higher education The contributions offer very personal approaches to the academic culture of the present moment Some tackle issues of academic freedom head on others more obliquely but they all have been written as declarations of the academic freedom that comes with slow thinking slow reading slow writing and slow looking and the demonstrations of its benefits CATHERINE E KARKOV is Professor and Chair of Art History at the University of Leeds Contributors Lara Eggleton Karen Jolly Chris Jones James Paz Andrew Prescott Heather Pulliam
