Stories from Outer Space Raj Sacranie,1979 *Boys' Life Book of Outer Space Stories* Boys' Life Magazine Editors,1964

Outer Space Stories Abraham Loew Furman,1965 The Anatomy of Story John Truby,2008-10-14 John Truby is one of the most respected and sought after story consultants in the film industry and his students have gone on to pen some of Hollywood's most successful films including *Sleepless in Seattle*, *Scream* and *Shrek*. *The Anatomy of Story* is his long awaited first book and it shares all of his secrets for writing a compelling script. Based on the lessons in his award winning class *Great Screenwriting*, *The Anatomy of Story* draws on a broad range of philosophy and mythology offering fresh techniques and insightful anecdotes alongside Truby's own unique approach for how to build an effective multifaceted narrative. Truby's method for constructing a story is at once insightful and practical, focusing on the hero's moral and emotional growth. As a result, writers will dig deep within and explore their own values and worldviews in order to create an effective story. Writers will come away with an extremely precise set of tools to work with, specific useful techniques to make the audience care about their characters and that make their characters grow in meaningful ways. They will construct a surprising plot that is unique to their particular concept and they will learn how to express a moral vision that can genuinely move an audience. The foundations of story that Truby lays out are so fundamental they are applicable and essential to all writers, from novelists and short story writers to journalists, memoirists and writers of narrative non-fiction. *Explore Outer Space with Cosmic Chase* Shelly Rollins,2020-11-27 A story about outer space will always be a captivating and exciting experience for young children. Your child will explore the galaxy with *Cosmic Chase* and learn so much about the world beyond our planet. This bedtime story will keep your little one looking forward to going to bed every night for an out of this world adventure. Metaphorical Stories in Discourse L. David Ritchie,2017-09-14 This book defines and explains in straightforward language metaphorical stories using examples from sources such as conversations, speeches and editorial cartoons. **Stories in Red and Black** Elizabeth Hill Boone,2000-01-01 This title offers analysis of Mexican painted history as an intellectual documentary and pictorial genre. The author explores how Mexican historians conceptualized and painted their past and introduces the major pictorial records: Aztec annals and cartographic histories and Mixtec screenfolds and lienzos. Boone focuses her analysis on the kinds of stories told in the histories and on how the manuscripts work pictorially to encode, organize and preserve these narratives. This twofold investigation aims to broaden our understanding of how pre-conquest Mexicans use pictographic history for political and social ends. It also demonstrates how graphic writing systems created a broadly understood visual language that communicated effectively across ethnic and linguistic boundaries. **Amazing Stories** ,1926 **Space Stories that**
