## **The Theft Of The Virgin:**

*The Theft of the Virgin* John Scherber, 2012-07 THE THEFT OF THE VIRGIN When Paul Zacher finds a genuine old master's painting hanging in an exhibit of great fakes it can only mean one thing the fake must be hanging in place of the real one he's seeing Is this a new way of transporting stolen masterworks And who was skilled enough to paint that copy This ninth of the San Miguel mysteries puts Paul on the trail of a world class forger When that trail crosses the route of the Virgin of Guadalupe as it tours Mexico the ante is boosted to murderous levels As the action swings from Florence to Texas to Guadalajara and San Miguel the question becomes what is Paul Zacher really looking at

## **The Virgin's Secret Marriage**

## **Miracles and Wonders in the Middle Ages and Early Modern**

**Period** Albrecht Classen, 2025-10-20 Despite the assumption that we live today in a rather rationalist and mechanized world there remain many aspects that neither medicine nor physics can fully explain The Catholic Church continues to pronounce individuals as saints because scientifically confirmed miracles are associated with them If we want to gain a solid understanding of the pre modern history of mentality emotions and everyday culture it proves to be highly revealing to examine what miracles and wonders had meant at that time both in the theological and medical field in the visual arts and literature As a matter of fact people both in the East and in the West have consistently flocked to pilgrimage sites all over the world in the hope that a miracle might happen and solve issues for them The contributors to this volume based on a symposium at the University of Arizona May 2024 approach this critically important topic from many different perspectives taking us from the early Middle Ages to the early modern age examining hagiographical medical literary and alchemical texts discussing both miracles and wonders as relevant themes in the public discourses Both the passage through Inferno and Purgatorio as the crucial pathway toward Paradiso and the experience of women's miraculous conception are identified as deeply impactful for the pre modern world and this both in Christian and Muslim cultures Studying miracles and wonders through a kaleidoscope of different materials and concepts makes it possible to gain a closer understanding of people's mindsets power structures and the debate between medicine and religion These topics were also greatly important in other cultures as several papers on Arabic medieval literature indicate Further pursuing this global issue we recognize easily that the separation line between the Middle Ages and the early modern period is only a modern construct and often not that helpful because the discourse on miracles and wonders has continued and influences us today

'Virgins of God' : The

Making of Asceticism in Late Antiquity Susanna Elm, 1994-09-15 Many of the institutions fundamental to the role of men and women in society today were formed in late antiquity This path breaking study offers a comprehensive look at how Christian women of this time initiated alternative ascetic ways of living both with and without men The author studies how these practices were institutionalized and why later they were either eliminated or transformed by a new Christian Roman elite of men we now think of as the founding fathers of monasticism Situated in a period that witnessed the genesis of institutions fundamental to this day this path breaking study offers a comprehensive look at how ancient Christian women initiated ascetic ways of living and how these practices were then institutionalized Using the organization of female asceticism in Asia Minor and Egypt as a lever the author demonstrates that in direct contrast to later conceptions asceticism began primarily as an urban movement Crucially it also originated with men and women living together varying the model of the family The book then traces how in the course of the fourth century these early organizational forms underwent a transformation Concurrent with the doctrinal struggles to redefine the Trinity and with the formation of a new Christian eacute lite men such as Basil of Caesarea changed the institutional configuration of ascetic life in common they emphasized the segregation of the sexes and the supremacy of the rural over urban models At the same time ascetics became clerics who increasingly used female saints as symbols for the role of the new ecclesiastical elite Earlier more varied models of ascetic life were either silenced or condemned as heretical and those who had been in fact their reformers became known as the founding fathers of monasticism
