## **The Transit Metropolis A Global Inquiry:**

The Transit Metropolis Robert Cervero,1998-10 The author has spent more than three years studying cities around the world and he makes a compelling case that metropolitan areas of any size and with any growth pattern from highly compact to widely dispersed can develop successful mass transit systems **BOOK JACKET** *The Sustainable Urban Development Reader* Stephen M. Wheeler,Timothy Beatley,2004 Bringing together classic readings from a wide variety of sources this key book investigates how our cities and towns can become more sustainable Thirty eight selections span issues such as land use planning urban design transportation ecological restoration economic development resource use and equity planning Section introductions outline the major themes whilst the editors introductions to the individual writings explain their interest and significance to wider debates Additional sections present twenty four case studies of real world sustainable urban planning examples sustainability planning exercises and further reading Providing background in theory practical application and vision in a clear accessible format *The Sustainable Urban Development Reader* is an essential resource for students professionals and indeed anyone interested in the future of urban environments Cities of the Global South Reader

Faranak Mirafab,Neema Kudva,2014-10-10 The *Cities of the Global South Reader* adopts a fresh and critical approach to the field of urbanization in the developing world The Reader incorporates both early and emerging debates about the diverse trajectories of urbanization processes in the context of the restructured global alignments in the last three decades Emphasizing the historical legacies of colonialism the Reader recognizes the entanglement of conditions and concepts often understood in binary relations first third worlds wealth poverty development underdevelopment and inclusion exclusion By asking whose city whose development the Reader rigorously highlights the fractures along lines of class race gender and other socially and spatially constructed hierarchies in global South cities The Reader's thematic structure where editorial introductions accompany selected texts examines the issues and concerns that urban dwellers planners and policy makers face in the contemporary world These include the urban economy housing basic services infrastructure the role of non state civil society based actors planned interventions and contestations the role of diaspora capital the looming problem of adapting to climate change and the increasing spectre of violence in a post 9 11 transnational world The *Cities of the Global South Reader* pulls together a diverse set of readings from scholars across the world some of which have been written specially for the volume to provide an essential resource for a broad interdisciplinary readership at undergraduate and postgraduate levels in urban geography urban sociology and urban planning as well as disciplines related to international and development studies Editorial commentaries that introduce the central issues for each theme summarize the state of the field and outline an associated bibliography They will be of particular value for lecturers students and researchers making the *Cities of the Global South Reader* a key text for those interested in understanding contemporary urbanization processes

Urban Mobilities in the Global South Tanu Priya Uteng,Karen Lucas,2017-11-27 The book considers urban mobilities and

immobilities in the Global South through an exploration of the theoretical and methodological entry points that can be used to further the agenda of transport planning Transport system improvements can and do have complex and unequal impacts on different sectors of society Conventional approaches to analysing travel demand and transport system performance developed in the Global North are typically ill equipped to identify and understand the complexities and inequities in urban areas of the Global South Using case studies from urban Africa and Asia the book addresses the need to understand the lived world of mobilities and use this knowledge to address issues that are central to our urban existence in the 21st century

**Sustainable Urban Development Reader** Stephen M. Wheeler, Timothy Beatley, 2014-10-03 Building on the success of its second edition the third edition of the Sustainable Urban Development Reader provides a generous selection of classic and contemporary readings giving a broad introduction to this topic It begins by tracing the roots of the sustainable development concept in the nineteenth and twentieth centuries before presenting readings on a number of dimensions of the sustainability concept Topics covered include land use and urban design transportation ecological planning and restoration energy and materials use economic development social and environmental justice and green architecture and building All sections have a concise editorial introduction that places the selection in context and suggests further reading Additional sections cover tools for sustainable development international sustainable development visions of sustainable community and case studies from around the world The book also includes educational exercises for individuals university classes or community groups and an extensive list of recommended readings The anthology remains unique in presenting a broad array of classic and contemporary readings in this field each with a concise introduction placing it within the context of this evolving discourse The Sustainable Urban Development Reader presents an authoritative overview of the field using original sources in a highly readable format for university classes in urban studies environmental studies the social sciences and related fields It also makes a wide range of sustainable urban planning related material available to the public in a clear and accessible way forming an indispensable resource for anyone interested in the future of urban environments
