## **The Twelve Sacred Principles Of Karma:**

*The Twelve Sacred Principles of Karma* Steven L. Hairfield, 2009-06 Taking in a sweeping introspection from the abusive beginnings of my childhood to my military deployment into Vietnam to my incredible sojourn in the Far East I fully realized that my journey was set in motion at the very moment of my birth This is absolutely remarkable Who would have figured out that from my early experiences with my father I would come to honor and thank him for all what he had given me Who would have known that I would meet my first teacher a Zen Master living close to a war torn village who would guide me to follow my intuitive senses Who had pre planned and planted the urge for me to fly to India of all places so I could meet my Master Teachers and walk the path of the Master Christ all the while teaching me to interact with consciousness to utilize meditation and to fully understand Karma Admit it now if not Karma did you plan all this for me Individual life is such a truly wondrous gift such a perfect tool to use as our body of perfection moves forward and evolves throughout its journey I have had the opportunity to study with the most magnificent people ever placed in this world Tibetan Monks My life began from very difficult beginnings which ultimately led me to the halls of monasteries in the Far East to learn the truths of life These truths are now being shared with you in the pages of this book They contain not only the information on Karma but also to the way they are taught Some of these stories are very humorous in the techniques which were used by my teachers The words contained within the pages are to enlighten and to empower you in all that you do I had the wonderful opportunity to study the Tibetan Buddhist path to full consciousness in this life and it is my humble desire to share that knowledge with you Many years have passed since my sojourn in the Far East but the knowledge is more ingrained in me today than when originally taught I have since traveled the halls of academia until achieving my Ph D and know that academia is not able to teach a person who they truly are along with the magnificence of being human It is my desire today through writing seminars and interacting with people to get them to reach for their own divine nature Read more at [www.innercirclepublishing.com](http://www.innercirclepublishing.com) or [www.hairfield.com](http://www.hairfield.com)

*The Science and Practice of Humility* Jason Gregory, 2014-10-09 Humility being open and receptive to all experience is the key to becoming one with the spontaneous patterns of the universe Integrates classic teachings of Hinduism and Buddhism with principles of quantum physics to reveal the science of the enlightened masters Reveals how we are each capable of shifting from the aggressive path of the warrior to the humble path of the sage Explains how the key to catching the current acceleration of conscious evolution is humility From Krishna and Lao tzu to Buddha and Jesus each enlightened master discovered how being receptive to all experience was the key to becoming one with the universe and its spontaneous patterns of order and chaos Revealing humility as the purest expression of this receptivity Jason Gregory integrates classic teachings of Hinduism Buddhism Taoism and Hermeticism with principles from quantum physics to explain the science of humility as practiced by the ancient masters The author shows how driven by fear the human mind creates the ego In its greedy and arrogant quest to protect the self and its desires the ego forges the illusion of separation weaving

complex patterns of reality that shield us from our unity with all beings and result in attitudes of aggression selfishness and competition He reveals how the iconic clash between this complex aggressive path of the warrior and the simple path of the sage is reflected in the polarized state of the modern world Yet this state also reflects the accelerating wave of conscious evolution we are now experiencing The key to catching this evolutionary wave is humility the reversal of complexity into simplicity the ancient science of mental alchemy that represents the Great Work of Eternity Fasting the Mind Jason Gregory,2017-05-25 Combines cognitive psychology with Zen Taoist and Vedic practices to empty the mind Explains how eliminating external stimulation can alleviate stress and anxiety for a calmer state of mind Details meditation practices such as open awareness meditation contemplation of Zen koans and Vipassana meditation and explores methods of digital detox Draws on classical yoga Hinduism Buddhism and Taoism as well as cognitive science to explain how and why to fast the mind Stop planning stop comparing stop competing stop thinking and just breathe deeply for a minute Our undivided attention is something we are rarely able to give for reasons ranging from digital overload to the cultural conditioning of equating busyness with purpose Just as you might choose a fast from eating to detoxify the body the best way to overcome this modern mental overload is to periodically fast the mind Drawing on the spiritual philosophies and meditative practices of classical yoga Hinduism Buddhism and Taoism Jason Gregory explains how fasting the mind directly impacts your habits and way of being in the world to create peace and calmness in your life as well as allow you to build a firm psychological defense against the increasing bombardment of distractions in our world Applying psychology and cognitive science to samsara the cycle of suffering created by our attachment to the impermanent he explains how overreliance on the rational mind causes imbalances in the autonomic nervous system and suppresses our natural spontaneity feelings and intuition When we are unable to relax the mind deeply we enter a destabilizing state of stress and anxiety and are unable to liberate the true Self from the impermanence and limitations of the material world Sharing Zen Taoist and Vedic practices to help you empty your mind and gradually restore your natural rhythms the author shows how to give the mind time to truly relax from stimulation so it can repair itself and come back into equilibrium He details simple meditation practices that are easy to implement in daily life such as open awareness meditation and contemplation of Zen koans as well as the advanced techniques of Vipassana a Theravadic Buddhist discipline centered on seclusion from all worldly stimuli He also offers methods for digital detox and ensuring a good night s sleep a major support for healing cognitive impairment and restoring a state of equanimity By fasting the mind we strip away the distractions and stresses of modern life and return to our original nature as it exists deep within We become more consciously awake in every moment allowing us to feel the real beauty of the world and in turn to live life more fully authentically and peacefully **Your Journey to Love** Simran,Simran Singh,2015-02-16 Are you ready to meet your soul s true mate The greatest quest in life is to love and be loved Love continually reveals everything unlike itself Through self discovery real connection and communion the relationship that unfolds is the greatest love of all Your

*The Image Maker* Avis Cole Attaway LMFT,2018-07-03 We all begin life with dreams We believe in magic like Santa Claus and the Tooth Fairy Nothing seems to be out of our reach Over time however we learn differently We are told to stop dreaming and to get our head out of the clouds We are told that if we want something we just need to work hard for it But even with hard work and persistence those things we desire often remain elusive and just out of reach We try to think positivelyand still nothing changes Life begins to feel like something that appears to work for others but not for us We may even begin to think that we might be cursed because nothing we do seems to turn out as we had hoped Or perhaps those dreams have come true yet we dont feel as happy or contented as we had expected Something seems to prevent us from experiencing any joy or satisfaction in life Life is not what we had imagined Imagining is the key We can create the life of our dreams through the correct use of our mind and construct a new way of being that feels authentic and joyful The Image Maker will lead you into explorations of your life from every angle and encourage your examination of the conscious and subconscious beliefs that are currently running your life Then with this information in hand you will be ready to make new choices that will start you on the path of your dreams
