The United States boasts a culturally and ethnically diverse population that makes for a continually changing culinary landscape. But a young historical gastronomist named Sarah Lohman discovered that American food is united by eight flavors black pepper vanilla curry powder chili powder soy sauce garlic MSG and Sriracha. In a unique and surprising view of American history richly researched intriguing and elegantly written The Atlantic Lohman sets out to explore how these influential ingredients made their way to the American table. She begins in the archives searching through economic scientific political religious and culinary records. She pores over cookbooks and manuscripts dating back to the eighteenth century through modern standards like How to Cook Everything by Mark Bittman. Lohman discovers when each of these eight flavors first appear in American kitchens then she asks why. A fresh original perspective to American culinary history The Christian Science Monitor Eight Flavors takes you on a journey through the past to tell us something about our present and our future. We meet John Crowninshield a New England merchant who traveled to Sumatra in the 1790s in search of black pepper. And Edmond Albius a twelve year old slave who lived on an island off the coast of Madagascar who discovered the technique still used to pollinate vanilla orchids today.
