National Association of Broadcasters Engineering Handbook Garrison Cavell, 2017-07-28 The NAB Engineering Handbook is the definitive resource for broadcast engineers. It provides in depth information about each aspect of the broadcast chain from audio and video contribution through an entire broadcast facility all the way to the antenna. New topics include Ultra High Definition Television, Internet Radio, Interfacing and Streaming, ATSC 3.0, Digital Audio Compression Techniques, Digital Television Audio Loudness Management and Video Format and Standards Conversion. Important updates have been made to incumbent topics such as AM Shortwave FM and Television Transmitting Systems, Studio Lighting, Cameras and Principles of Acoustics. The big picture comprehensive nature of the NAB Engineering Handbook will appeal to all broadcast engineers everyone from broadcast chief engineers who need expanded knowledge of all the specialized areas they encounter in the field to technologists in specialized fields like IT and RF who are interested in learning about unfamiliar topics. Chapters are written to be accessible and easy to understand by all levels of engineers and technicians. A wide range of related topics that engineers and technical managers need to understand are covered including broadcast documentation, FCC practices, technical standards, security, safety, disaster planning, facility planning, project management and engineering management.

Now that the industry has embraced the nascent technology and added new tools and workflows filmmakers from independents on up are leading the charge on establishing new rules. Here to guide newcomers and RED veterans alike popular trainer and filmmaker Noah Kadner picks up where the manual leaves off. You've got the basic operations down and now you'll learn how to use the camera in a production environment and discover the various options in post. Using a clear objective approach he offers best practice advice on utilizing RED's proprietary tools, explains the workflows for Final Cut Studio, Avid and Premiere Pro and gives workarounds where needed. Well known filmmakers and industry leaders share their own bleeding edge production methodologies throughout offering a rare view into this exciting new world of filmmaking. Here are just a few things you'll learn to do: Build a RED package that fits your budget. Set up for sound recording and learn which audio tools to use. Achieve the optimal exposure using RED's onboard tools and external gear. Edit your footage with step by step instructions for Avid Final Cut Pro and Premiere Pro. Work color correction into your HD film or Web projects. Prep your project for output and archive your footage.
