Soul Power Science Spirituality And The Search For The Soul:

Soul Power Guy McKenna,2003 A monumental work says Dr Valerie Hunt former professor at Columbia University University of Iowa and University California Los Angeles and author of Infinite Mind For thousands of years people have questioned how the human soul works and expresses spirituality Now for the first time there is an objective answer grounded in science that explains spiritual phenomena Soul Power Science Spirituality and the Search for the Soul brings together recent advances in neurobiology physics and psychology and reconciles them with ancient texts and religious scriptures in a revealing new study of the soul This groundbreaking book is the most comprehensive account of the science involved in spirituality It details how some scientists have been able to recreate spiritual experiences in people regardless of their beliefs Soul Power s examination of what our heightened spiritual senses perceive has been described as the best scientific evidence so far for the existence of God *Science of the Soul* Loren Albert Sherman,1895 The Anthroposophical Soul Calendar and the Incarnation Cycle of Man Roland Schrapp,2021-01-14 This book takes a completely new look at the Anthroposophical Soul Calendar It is abaout the deeper meaning of the fifty two weekly verses which has remained essentially unexplored in the last hundred years since the first edition by Rudolf Steiner A dense veil of Isis was spread over them of which is well known that no mortal person can lift it Only the immortal psycho spiritual human being who knows himself at home in the extrasensory higher worlds is capable of doing this Only to him the weekly verses reveal themselves as a travel guide through these worlds and lift him up to ever higher spiritual cosmic realms until he reaches the experience of God from where he gradually descends again into a new life on Earth enriched in spirit and fertilized in his soul If the reader embarks on this journey the spiritual archetype of the Soul Calendar is ultimately unveiled to him and he achieves an extended understanding of Man and Christ By many quotations from Rudolf Steiner s lectures and books the author virtually lets Steiners himself elucidate the breathtaking depths of his mysterious weekly verses **The Oxford Handbook of the Cognitive Science of Religion** Justin L. Barrett,2022 Most comprehensive treatment of the cognitive science of religion Includes contributions from the field s founders and its rising stars Explores topics such as human nature ritual and mystical experiences Book jacket *Discourses Through the Mediumship of Mrs. Cora L.
