## **Chatgpt Netflix This Week:**

Impact and implications of AI methods and tools for the future of education Kingsley Okoye, Samira Hosseini, Kamal Kant Hiran, Julius Nganji, 2024-06-07 The congruence of technology such as AI and its use for education can help transform the different pedagogical practices and future of education. Educational organizations like The UNESCO and The World Bank are already calling for research and development oriented projects and creation mobilization of technological initiatives on how to re imagine education and operationalize the use of digital technologies for its purpose the Digitized Education. Those goals mean or include methodological approaches and wide adoption of the AI methods in fostering education in the classroom or learning environments. Also noteworthy is the fact that digitized education is now an inevitable and integral element to achieving the global sustainable development goals SDGs particularly the SDG4 that promotes quality of education.

**Textual Intelligence** Meenakshi Malik, Preeti Sharma, Susheela Hooda, 2025-07-23 The book is a must have resource for anyone looking to understand the complexities of generative AI offering comprehensive insights into LLMs effective training strategies and practical applications. Textual Intelligence Large Language Models and Their Real World Applications provides an overview of generative AI and its multifaceted applications as well as the significance and potential of Large Language Models LLMs including GPT and LLaMA. It addresses the generative AI project lifecycle challenges in existing data architectures proposed use case planning and scope definition model deployment and application integration. Training LLMs data requirements for effective LLM training pre training and fine tuning processes and navigating computational resources and infrastructure are also discussed. The volume delves into in context learning and prompt engineering offering strategies for crafting effective prompts techniques for controlling model behavior and output quality and best practices for prompt engineering. Textual Intelligence Large Language Models and Their Real World Applications also discusses cost optimization strategies for LLM training aligning models to human values optimizing model architectures the power of transfer learning and fine tuning instruction fine tuning for precision and parameter efficient fine tuning PEFT with adapters such as LoRA, QLoRA and soft prompts making it an essential guide for both beginners and industry veterans. Readers will find this book explores the real world potential of large language models. Introduces industry changing AI solutions. Provides advanced insights on AI and its models. Audience Industry professionals academics graduate students and researchers seeking real world solutions using generative AI.

The Rise of Generative Artificial Intelligence Nir Kshetri, 2024-12-09 This timely book explores how generative artificial intelligence GAI is developing and diffusing highlighting the diverse impacts this technology is likely to have on economies and societies. It also examines the effects on and the responses of industries where GAI has been the most pervasive.

**Transforming Academic Libraries** Rajesh Singh, Shiva Kanaujia, Sukula, 2025-07-25 The book comprises the proceedings of the International Conference on Academic Libraries ICAL 2023 in the context of developing a vision for the next generation of libraries which will contribute to nation building and give a competitive edge to

the country in becoming a knowledge economy The book provides a quality reading and exchange of ideas to all stakeholders to deliberate dwell and brainstorm upon the diverse and enormous role that academic libraries may play in enhancing the higher education landscape in developed and developing countries with particular reference to India by 2030 The book includes literature and opportunities to identify the strengths and gaps in the academic library system and to suggest new management models mechanisms policies and national and international programs for reshaping academic libraries into next generation libraries for higher education
