Times to the Cold War Thomas Adam, 2020-10-13 This book examines how tuition and student loans became an accepted
part of college costs in the first half of the twentieth century The author argues that college was largely free to nineteenth
century college students since local and religious communities donors and the state agreed to pay the tuition bill with the
expectation that the students would serve society upon graduation College education was essentially considered a public
good This arrangement ended after 1900 The increasing secularization and professionalization of college education as well as
changes in the socio economic composition of the student body which included more and more students from well off families
caused educators college administrators and donors to argue that students pursued a college degree for their own
advancement and therefore should be made to pay for it Students were expected to pay tuition themselves and to take out
