## To turn on your computer Para encender la computadora

Before starting your computer for the first time, do not connect any other hardware that has not originally come with your computer. When you do that, you might not be able to support additional components and part of your laptop's basic functions, such as drive, can become unresponsive, a problem in communication, or a system error, or a virus, corrupting the functions of your computer.

Do not connect any hardware device that you cannot unplug easily from the computer, such as the power source. Be sure to read the computer's user's manual for more information on connecting and disconnecting external devices. When you disconnect an external device, connect an adapter or remove the power source, wait at least 10 seconds for the computer to turn off completely.
