## STEM KITS ON SALE RETURNS:

**Rules of the Road for Nonprofit Leaders** Elizabeth M. Schmidt, 2025 The United States has the most robust nonprofit sector in the world. It is guided by rules that have enabled countless nonprofits to achieve their missions. These rules have also helped shape the sector into a remarkable expression of the disparate and collective aspirations that Americans hold both for their communities and the planet. However, the rules governing nonprofits are confusing for anyone who is not trained as a lawyer. They are written in negative and convoluted language that stresses what is forbidden and they tend to paralyze those who are trying to change the status quo. Nonprofit leaders need and deserve clear rules and regulations that tell them what they can and should do to achieve their missions. A reframing of these rules does more than explain however. Once we look at nonprofit rules from a different lens we can think more clearly about how these laws can be more responsive to the changing needs of the nonprofit sector and of our society. **Popular Science**, 1969-12 Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better and science and technology are the driving forces that will help make it better.
