American Universities in a Global Market Charles T. Clotfelter, 2010-04-28 In higher education the United States is the preeminent global leader dominating the list of the world's top research universities. But there are signs that America's position of global leadership will face challenges in the future as it has in other realms of international competition. *American Universities in a Global Market* addresses the variety of issues crucial to understanding this preeminence and this challenge. The book examines the various factors that contributed to America's success in higher education including openness to people and ideas, generous governmental support, and a tradition of decentralized, friendly competition. It also explores the advantages of holding a dominant position in this marketplace and examines the current state of American higher education in a comparative context, placing particular emphasis on how market forces affect universities. By discussing the differences in quality among students and institutions around the world, this volume sheds light on the singular aspects of American higher education.

World University Rankings and the Future of Higher Education Downing, Kevin, Ganotice, Jr., Fraide A., 2016-10-06 Delivering quality education to students while remaining competitive at an international level is only one of the many challenges universities face today. To attain their goals, universities must adopt new strategies to achieve academic excellence. *World University Rankings and the Future of Higher Education* is a pivotal reference source for the latest scholarly research on the implementation of a ranking system for higher education institutions, providing a thorough overview of the impacts of these rankings on educational quality. Exploring the benefits and challenges of this system in a global context, this book is ideally designed for academicians, researchers, students, administrators, and policy makers interested in the effects of university rankings in the education sector and beyond.

Sustainability Assessment in Higher Education Institutions Sandra Caeiro, Ulisses Miranda Azeiteiro, 2020-12-10 This Special Issue *Sustainability Assessment in Higher Education Institutions* provides peer-reviewed research from several geographies and institutions, covering various topics with the broad objective of achieving an assessment of the effectiveness and impact of different implementation dimensions, measuring and evaluating how sustainability is being applied in practice. A set of nine papers covering sustainability, education, interdisciplinary teaching, sustainable assessment, governance, strategies, commitments, and practices, and social responsibility at higher education institutions contribute significantly to this area of knowledge.

U.S. News & World Report, 1991 **Rethinking International Skilled Migration** Micheline van Riemsdijk, Qingfang Wang, 2016-10-04 In today's global knowledge economy, competition for the best and brightest workers has intensified. Highly skilled workers are an asset to companies, knowledge institutions, cities, and regions as they contribute to knowledge creation, innovation, and economic growth and development. Skilled migrants cross and many times straddle international borders to pursue professional opportunities. These spatial relocations provide opportunities and challenges for migrants and the cities and regions they inhabit. How have international skilled migratory flows been formed, sustained, and transformed over

multiple spaces and scales How have these processes affected cities and regions And how have multiple stakeholders responded to these processes The contributors to this book bring together perspectives from economic social urban and population geography in order to address these questions from a myriad of angles Empirical case studies from different regions illuminate the multiscaled processes of international skilled migration In particular the contributions rethink skilled migration theories and provide insights into the experiences of highly skilled labor migrants and international students issues related to transnational activities and return migration and policy implications for both immigrant source and destination countries It also charts a future research agenda for international skilled migration research Rethinking International Skilled Migration provides a comparative perspective on the experiences of skilled migrants across the local regional national and or global scale paying particular attention to spatial and place based dimensions of international skilled migration It will be of interest to scholars and professionals in international migration regional and national development policymakers international businesses and NGOs
