Morning Routines Mira Skylark, AI, 2025-03-06 Morning Routines explores how a structured start to the day can significantly boost productivity enhance mental well-being and improve physical health. The book argues that a consistent personalized morning routine incorporating elements like mindful hygiene proper nutrition and energizing movement is a proactive strategy against daily stress. It delves into the science and psychology behind habit formation and the circadian rhythm illustrating how deliberate choices made in the first few hours after waking can dramatically influence energy levels, focus and overall mood. One intriguing insight is the connection between morning activity and physiological regulation which impacts mood and focus throughout the day. The book's unique value lies in its emphasis on individualization encouraging readers to adapt routines to their specific needs and preferences rather than offering a one size fits all solution. Morning Routines progresses from foundational principles and sleep science to specific strategies for designing personalized routines including optimizing sleep incorporating exercise and mastering mindful practices. It culminates in a practical guide to implementation and maintenance addressing common obstacles and offering tailored solutions for personal development and overall wellness.

**Artificial Intelligence Ethics** Azhar Zia-ur-Rehman, 2025-04-17 Artificial intelligence AI has permeated every aspect of life. Like every other technology AI poses risk and raises questions on ethics related to its design, development, deployment, use and retirement. While a completely ethical AI may not be possible to achieve, it is possible to assess the maturity of the ethics of certain AI based

This book is just the beginning of a whole new domain of AI ethics maturity assessment in which the author plans to establish a certification body for certifying systems and organizations on the maturity of their AI ethics. The author may be approached for partnership in this regard at azharzr.usa.net.
