Succulent Sensibilities Richard Pannell, 2013-02 Recipes and Romance by Chef Richard Pannell of Sacramento California As a chef Richard had been delighting diners with creative and delicious recipes such as his Gumbo Sandwich Barbecued Lasagna African Curry Soup and Deep Dish Sweet Potato Pie In this book he has combined his recipes with his sensual poetry taking readers from the kitchen to the bedroom Richard Pannell a native of Sacramento CA began his career in the culinary industry in 1982 by catering a yacht cruise in the San Francisco Bay Area for a local businessman and friend Thus began a long and rewarding career in the catering business for Pannell According to Richard I was inspired to write poetry with the influence of food and sensuality is because I love them both With food we eat with our eyes before we eat with our mouths as we do with people we are attracted to By combining both attractions we can create some of the most interesting intriguing and sensual cuisines imaginable **Los Angeles Magazine**, 2003-04 Los Angeles magazine is a regional magazine of national stature Our combination of award winning feature writing investigative reporting service journalism and design covers the people lifestyle culture entertainment fashion art and architecture and news that define Southern California Started in the spring of 1961 Los Angeles magazine has been addressing the needs and interests of our region for 48 years The magazine continues to be the definitive resource for an affluent population that is intensely interested in a lifestyle that is uniquely Southern Californian

The Sixth Sense Robert Finch, 1966-12-15 It has long been the custom to condemn eighteenth century French poetry outright as generally unworthy of attention However in keeping with a recent change of attitude towards this vast and diverse body of literature Professor Finch here undertakes to isolate a certain group of poets belonging to the first half of the century who may appropriately be called individualistes and who are in various ways characteristic of a definite and important trend of their time The authors he has chosen were selected from the larger group of individualists because each provides in addition to his poems a complete statement of his own conception of poetry and of that conception which is common to the group as a whole Since the works treated are comparatively unfamiliar the author has considered them from a historical and an analytical as well as a critical point of view In addition he has devoted three special chapters to a literary historian Evrard Tiron du Tillet and to three critical theorists Jean Baptiste Dubos Yves Marie Andr and Charles Batteux whose contemporary writings while they may or may not have influenced the poets here examined support reflect or confirm their ideas and practice Texts of these poets are not easily available and the numerous representative quotations from the poems given in this book will be welcomed by the reader **Los Angeles Magazine**, 2003

Sensibility, Reading and Illustration Ann Lewis, 2017-12-02 Eighteenth century sensibility has always been controversial In fact the term itself refers to complex forms of physical and emotional responsiveness and Lewis's study investigates the fictional exploration of various

key problems of sentimental response that were at the heart of eighteenth century moral epistemological and aesthetic debates These are analysed in conjunction with some of the actual often emotional responses that the term its fictions and images have provoked through time including an indispensable survey of the varying construction of sensibility as an object of study and the polemics subtending its definition The verbal evocation of the visual in the form of spectacles and signs was understood in the eighteenth century as having an especially powerful impact Lewis provides a new reading of the theme of sensibility by analysing the textual images in three best selling novels from the mid century Graffigny's *Lettres d'une Peruvienne* Marivaux's *La Vie de Marianne* and Rousseau's *Julie* The examination of a largely neglected corpus of illustrations understood as readings of each text provides striking new evidence of the complexity thematic richness and duplicity of these spectacles whose power to provoke different reactions is perhaps their most interesting characteristic

Senses and Your Abilities Ed Hardy, Sean Hardy, 2008-03 There are many books on the market for the exercise of the body and quite a few on mental exercises This book offers the first everyday exploration on sensory training With trained senses new worlds open up to the reader Colors become brighter Sounds become sweeter Different tastes form on the palette In essence not only will the user of this book enjoy their reading experience but will gain tangible results from it *Senses and Your Abilities* is book written in a simple and fluid but highly readable style The guiding principle was that the book be easy to read and a pleasure to read The authors believe this book will be of greatest benefit to anyone unaware of much of the untapped power within their senses This book will help them to unlock those abilities The book will especially appeal to seniors With our increasing lifespans more people are becoming familiar with the tragic consequences on an inactive mind late in life By keeping one's mind alert and constantly busy with new exercises these things may be staved off A wondrous world of sight and sound will unfurl before the more mature readers of this book exciting the brain and the senses on a daily basis *Senses and Your Abilities* challenges to reader to get off their couch and explore the world around them Whether it is inhaling the scents of homemade brews of tea or paying attention to the shades of colors of parked cars these are exercises that everyone and anyone can perform Most importantly these exercises are simple enough that most can be done in a few minutes so the reader will never get frustrated at lack of results Indeed this book aims to open up the minds of its readers to the amazing processes going on throughout their bodies every time they sniff their coffee or run a hand across a silk shirt This book is up to date and makes use of the latest scientific knowledge on the workings of our brains and senses *Senses and Your Abilities* is both educational and motivational
