Bulletin of the University Summer Session University of Florida, 1929 **Resources in Education** , 1968-10 We Can Do It Michael T. Gengler, 2018-08-21 This book tells of the challenges faced by white and black school administrators teachers parents and students as Alachua County Florida moved from segregated schools to a single unitary school system After Brown v Board of Education the South s separate white and black schools continued under lower court opinions provided black students could choose to go to white schools Not until 1968 did the NAACP Legal Defense Fund convince the Supreme Court to end dual school systems Almost fifty years later African Americans in Alachua County remain divided over that outcome A unique study including extensive interviews We Can Do It asks important questions among them How did both races without precedent work together to create desegregated schools What conflicts arose and how were they resolved or not How was the community affected And at a time when resegregation and persistent white black achievement gaps continue to challenge public schools what lessons can we learn from the generation that desegregated our schools

Educational Systems for Disruptive Adolescents Keith J. Topping, 2022-12-29 In the early 1980s concern about disruptive behaviour in secondary schools had grown being variously regarded as a symptom of a decaying society or as a failure on the teachers part One response was to throw money at the problem and various different kinds of special schools and units had been devised to deal with disruptive adolescent pupils Yet there was little systematic evaluation of the different options particularly in terms of cost effectiveness Originally published in 1983 this book reviews all the available research on 21 alternative systems for the education of disruptive adolescents at the time These range from the highly expensive residential special schools to on site adaptations which involve no extra cost Most are based on developments in Britain and the United States and the author concludes in favour of many of the less sophisticated systems This book will be interesting historical reading for workers and students in educational psychology special education and educational policy Research in Education , 1968-07 **Federal Communications Commission Reports** United States.
