

Growth of Western Democracies: Section 1

Progress Monitoring Transparency

Use the excerpt to answer the following questions.

By 1830, Whigs and Tories were battling over a bill to reform Parliament. The Whig Party largely represented middle-class and business interests. The Tory Party spoke for nobles, landowners, and others whose interests and income were rooted in agriculture.

Parliament finally passed the Great Reform Act in 1832. It redistributed seats in the House of Commons, giving representation to large towns and cities and eliminating rotten boroughs. It also enlarged the electorate, the body of people allowed to vote, by granting suffrage to more men. The Act did, however, keep a property requirement for voting.

The Reform Act of 1832 did not bring full democracy, but it did give a greater political voice to middle-class men. Landowning nobles, however, remained a powerful force in the government and in the economy.

Migration, Refugee Policy, and State Building in Postcommunist Europe Oxana Shevel, 2011-10-24 Why do similar postcommunist states respond differently to refugees Why do some states privilege certain refugee groups while other states do not This book presents a theory to account for this puzzle and it centers on the role of the politics of nation building and of the office of the UN High Commissioner for Refugees UNHCR A key finding of the book is that when the boundaries of a nation are contested and thus there is no consensus on which group should receive preferential treatment in state policies a political space for a receptive and nondiscriminatory refugee policy opens up The book speaks to the broader questions of how nationalism matters after communism and under what conditions and through what mechanisms international actors can influence domestic policies The analysis is based on extensive primary research the author conducted in four languages in the Czech Republic Poland Russia and Ukraine
