Whale For The Killing:

A Whale for the Killing Farley Mowat, 2012-04-13 A compelling true story of the author's desperate attempts to save an eighty-ton fin whale trapped in a Newfoundland lagoon. As he tries to persuade wildlife authorities and the Canadian press to help him in his quest, he must fend off curious and uncaring locals who want to harvest the helpless whale for sport. As it tells one of Mowat's most personal and moving stories, this book becomes an impassioned plea to save a species that seems doomed to extinction. A classic nature book now back in print. In the 1960s, Farley Mowat was living in the tiny fishing community of Burgeo on the southwest coast of Newfoundland. When an 80-ton fin whale became trapped in a nearby saltwater lagoon, Mowat rejoiced: here was the first chance to study at close range one of the most magnificent animals in creation. Some local villagers thought otherwise, blasting the whale with rifle fire and hacking open her back with a motorboat propeller. Mowat appealed desperately to the authorities, but it was too late: ravaged by an infection resulting from her massive wounds, the whale died. A plea for the end of commercial hunting of the whale, this moving account blends all the tension of the life-and-death struggle for one animal's survival with the drama of man's wanton destruction of life-bearing creatures and the environment itself. *A Whale for the Killing* Farley Mowat, 1994 *A Whale for the Killing* David Seltzer, 1975 *Mowat's A Whale for the Killing* Catherine Finn, 1981* **An Analysis of A Whale for the Killing by Farley Mowat** Myrtle Carter, 1981* *A Whale for the Killing* David Seltzer, 1977 **A History of the Whale Fisheries** James Travis Jenkins, 1921 *The Whalebone Whales of the Western North Atlantic* Frederick William True, 1904

Whaling Diplomacy Alexander Gillespie, 2005-01-01 Whaling Diplomacy is the only book that addresses all of the substantive issues relating to the conservation of whales through the International Whaling Commission (IWC). It covers the law, policy, science, and philosophy at the heart of each element of the debate, discussing how it has developed, the current problems that beset it, and what is necessary for the future. Together, all of the issues involved in whaling form a single crucible through which the future of conservation in international environmental law is being debated. Students of law, politics, environmental economics, and philosophy will find this book of great value for its cutting-edge relevance over the three disciplines. Policymakers will also find it of interest for the insight into one of the most controversial conservation debates of our time. **BOOK JACKET** **Marine Mammal Conservation and the Law of the Sea** Cameron S. G. Jefferies, 2016 *Marine Mammal Conservation and the Law of the Sea* lays out and critiques the marine mammal regulatory landscape. It introduces the rational conservation model and details the modern threats to marine mammals, including climate change, bycatch, environmental pollution, ship strikes. Next, it discusses options for reform under UNCLOS and existing treaties, and finally introduces a new holistic treaty regime based on the rational conservation model, based in part on the UN Fish Stocks Agreement. **Anthropological Papers of the American Museum of Natural History** American Museum of Natural History, 1914 *The Stefánsson-Anderson Arctic Expedition of the American Museum* Vilhjálmur Stefánsson, 1914
