"There was only one catch and that was Catch-22, which specified that a concern for one's safety in the face of dangers that were real and alternative, was the process of a rational mind....Orr was crazy and could be grounded. All he had to do was ask; and as soon as he did, he would no longer be crazy and would have to fly more missions. Orr would be crazy to fly more missions and sane if he didn't, but if he was sane he had to fly them."
