Facebook Same Day Delivery Customer Service:

(Im)politeness at a Slovenian Call Centre Sara Orthaber,2023-10-02 This volume covers the field of linguistic im politeness in a particular mediated customer oriented setting It is the first book to do so across telephone email and social media It offers key insights into a unique customer service setting through authentic and spontaneous data analysis The book looks at how customers and agents of a large public transport company engage in transactional services and impolite behaviour This text is directed at scholars and practitioners working in communication business discourse socio pragmatics interaction studies and social media interactions It is also of great value to students in applied linguistics and scholars of Slavic languages particularly Slovenian The cross media study is also of value to public private institutions to reflect on their work practices helping them improve existing customer service provider relationships The diverse readership and appeal are essential features of this book Examines mediated institutional talk and impoliteness in the Slovenian language Covers mediated service interactions such as requests and complaints across three different media Provides in depth insights into communication within a contemporary business environment

The De Gruyter Handbook of Automated Futures Vaike Fors,Martin Berg,Meike Brodersen,2024-09-23 How does automation affect us our environment and our imaginations What

actions should we take in response to automation Beyond grand narratives and technology driven visions of the future what more can automation offer With these questions in mind The De Gruyter Handbook of Automated Futures provides a framework for thinking about and implementing automation differently It consolidates automated futures as an inter and transdisciplinary research field embedding the imaginaries interactions and impacts of automation technology within their social historical societal cultural and political contexts Promoting a critical yet constructive and engaging agenda the handbook invites readers to collaborate with rather than resist automation agendas It does so by pushing the agenda for social science humanities and design beyond merely assessing and evaluating existing technologies Instead the handbook demonstrates how the humanities and social sciences are essential to the design and governance of sustainable sociotechnical systems Methodologically the handbook is underpinned by a pedagogical approach to staging co learning and co creation of automated futures with rather than simply for people In this way the handbook encourages readers to explore new and alternative modes of research fostering a deeper engagement with the evolving landscape of automation

Digital Marketing Strategies for Value Co-creation Wilson Ozuem,Michelle Willis,2022-03-21 Online brand communities OBCs are

hugely important in the development of marketing strategy but it is unclear how marketers can effectively utilise these platforms to enhance and develop consumer engagement For an online brand community to be successful it should allow members to feel a connection to the brand and with other members while forming a disconnection from those not belonging to the community It should also have rituals and traditions that join members together over a revered commonality and moral responsibility in contributing to the community Indeed brands play active roles in securing degrees of activity in OBCs

through content that offers members the quality of engagement they seek. This book focuses on contemporary digital marketing issues in OBCs offering a comprehensive examination of consumers response to active engagement in such communities. It discusses how brands can tap into the various levels of participation engagement and online conversations in the development of marketing strategy and ultimately examines how an online brand community strengthens value co creation. Balancing theory with practical approaches this book gives serious treatment to an important yet until now overlooked area of digital marketing strategy providing an important resource for scholars students and practitioners.

I+D for Smart Cities and Industry Marcelo Zambrano Vizuete, Miguel Botto-Tobar, Angela Diaz Cadena, Ana Zambrano Vizuete, 2022-08-01.
