The Sufism of the Rubáiyát, or, the Secret of the Great Paradox Omar Khayyam,2021-05-19 In The Sufism of the

Rubáiyát or the Secret of the Great Paradox Omar Khayyam delves into the intricate layers of Sufi philosophy interwoven within his celebrated quatrains. This profound work transcends mere poetic aesthetics; it invites readers into a contemplative journey exploring existential themes such as the nature of the divine, the ephemeral reality of life, and the quest for spiritual enlightenment. Khayyam's literary style is marked by a melodic simplicity and a profound depth of insight which together paint a vivid tapestry of the human experience while reflecting the complex interplay of fate, love, and knowledge emphasized in Persian mysticism. Omar Khayyam, an esteemed mathematician, astronomer, and philosopher of the 11th century, encapsulates the spirit of Persian Sufism in this reflective anthology. His unique perspective, shaped by both scholarly rigor and rich cultural heritage, grants him the authority to merge philosophical inquiry with poetic expression. Living in a time of great cultural and intellectual flourishing, Khayyam's work serves as a bridge between science and spirituality, echoing the thoughts of prominent contemporary thinkers. I highly recommend *The Sufism of the Rubáiyát* to anyone seeking to explore the depths of Sufi thought through the beauty of poetry. eats It has been proved in ferocious and dreadful famines by people eating their own children that food is dearer than their own child The word of Christ therefore Find out what it is in Me that you love which may become your nourishment which may become your food It is not this My flesh and blood this will not be sufficient to satisfy your appetite There is another part of My being which is in abundance and can nourish My numberless devotees Therefore before trying to eat My flesh and blood try to find out on what plane I really exist and what is My true being The lives of all the great saints show that not only their adversaries and opponents but also their near and dear friends have proved to be among their worst enemies There is a creature which loves its mate so much that it eats it Now as to the question what it is that Christ speaks of as his flesh and blood His flesh is the knowledge of God and His blood is the love of God because it is love that has a tendency so to speak to excite the circulation and it is knowledge which has the tendency to strengthen making man firm of which flesh is the symbol One thing without the other would be abnormal For instance flesh without blood or blood without flesh both are not normal conditions What gives normal health to the body and to the soul is flesh and blood both In the religious custom of the sacrament of bread and wine it is this secret which is symbolically expressed
