

The poster features a close-up of two men's faces at the top. The man on the left is younger with a serious expression, while the man on the right is older, wearing glasses, and also serious. Below their faces is a large, glowing orange and red circular area. Inside this circle, at the bottom, is a silhouette of a person running towards a bright light. Above the person, several military helicopters are visible. The background of the circle is filled with a pattern of sharp, radiating lines, resembling a sunburst or a nuclear explosion. The overall color scheme is dominated by dark tones and the intense orange-red of the central circle.

Fear Itself Christopher D. Bader, Joseph O. Baker, L. Edward Day, Ann Gordon, 2020-03-03 An antidote to the culture of fear that dominates modern life From moral panics about immigration and gun control to anxiety about terrorism and natural disasters Americans live in a culture of fear While fear is typically discussed in emotional or poetic terms as the opposite of courage or as an obstacle to be overcome it nevertheless has very real consequences in everyday life Persistent fear negatively affects individuals decision making abilities and causes anxiety depression and poor physical health Further fear harms communities and society by corroding social trust and civic engagement Yet politicians

often effectively leverage fears to garner votes and companies routinely market unnecessary products that promise protection from imagined or exaggerated harms Drawing on five years of data from the Chapman Survey of American Fears which canvasses a random national sample of adults about a broad range of fears Fear Itself offers new insights into what people are afraid of and how fear affects their lives The authors also draw on participant observation with Doomsday preppers and conspiracy theorists to provide fascinating narratives about subcultures of fear Fear Itself is a novel wide ranging study of the social consequences of fear ultimately suggesting that there is good reason to be afraid of fear itself
