**Summons of Trumpet** Dave R. Palmer, 2009-01-21 Soldier scholar Palmer traces the history of the American involvement in Vietnam and shows how events in both the U S and Vietnam became inextricably linked as domestic dissent and a lack of realistic viable military strategy ultimately led to America s first lost war Summons of the trumpet :

U.S.-Vietnam in perspective Dave Richard Palmer, 1978 One Hundred Years of U.S. Navy Air Power Douglas V Smith, 2010-10-15 Published to coincide with the centennial celebration of U S Navy Aviation this book chronicles Navy aviation from its earliest days before the Navy s first aircraft carrier joined the fleet through the modern jet era marked by the introduction of the F 18 Hornet It tells how naval aviation got its start profiles its pioneers and explains the early bureaucracy that fostered and sometimes inhibited its growth The book then turns to the refinement of carrier aviation doctrine and tactics and the rapid development of aircraft and carriers highlighting the transition from propeller driven aircraft to swept wing jets in the period after WW II Land based Navy aircraft rotary wing aircraft and rigid airships and balloons are also considered in this sweeping tribute

**Combined Arms Warfare in the Twentieth Century** Jonathan Mallory House, 2001 For centuries the world has witnessed the development and use of increasingly complex and powerful military systems and technologies In the process the art of war has truly become the art of combined arms warfare in which infantry artillery air support intelligence and other key elements are all coordinated for maximum effect Nowhere has this trend been more visible than in the history of twentieth century warfare Originally published as an essential in house study for U S Army officers during the 1980s this much revised and expanded edition remains the most complete study available on the subject Rewritten with a much wider readership in mind it both retains its enormous practical utility for military professionals and provides a valuable and appealing introduction for scholars and general readers Jonathan House author of the original work brings the story of combined arms up to the present covering among other things Desert Storm the war in Chechnya and the rise of smart weapons and related technologies He traces the evolution of tactics weapons and organization in five major militaries American British German Russian and French over 100 years of warfare Revealing both continuities and contrasts within and between these fighting forces he also provides illuminating glimpses of Israeli and Japanese contributions to combined arms doctrine Expanding his insightful analysis of the world wars and the wars in Korea and Vietnam House also offers much new material focused on the post Vietnam period Throughout he analyzes such issues as command and control problems of highly centralized organizations the development of special operations forces advances in weapons technology including ballistic and anti ballistic missile systems the trade offs involved in using heavy versus light armed forces and the enduring obstacles to effective cooperation between air and land forces His strong critique of the air superiority propaganda that came out of the Gulf War is sure to spark some heated debates Rigorously comparative House s study addresses significant questions about how nations prepare for war learn or don t learn its harsh lessons and adapt to

changing times and technologies Unique in the annals of the literature on warfare it will be the standard work on this subject for a long time to come     **Parameters** ,1978     **King of Battle** Boyd L. Moore,2002-04-16 Each year the Commandant of the U S Marine Corps selects one book that he believes is both relevant and timeless for reading by all Marines The Commandant s choice for 1993 is *We Were Soldiers Once and Young* In November 1965 some 450 men of the 1st Battalion 7th Cavalry under the command of Lt Col Hal Moore were dropped by helicopter into a small clearing in the Ia Drang Valley They were immediately surrounded by 2 000 North Vietnamese soldiers Three days later only two and a half miles away a sister battalion was chopped to pieces Together these

actions at the landing zones X Ray and Albany constituted one of the most savage and significant battles of the Vietnam War. How these men persevered, sacrificed themselves for their comrades and never gave up, makes a vivid portrait of war at its most inspiring and devastating. General Moore and Joseph Galloway, the only journalist on the ground throughout the fighting, have interviewed hundreds of men who fought there, including the North Vietnamese commanders. This devastating account rises above the specific ordeal it chronicles to present a picture of men facing the ultimate challenge, dealing with it in ways they would have found unimaginable only a few hours earlier. It reveals to us as rarely before man's most heroic and horrendous endeavor.
