Ozarks and the Ouachitas where the expulsion of African Americans created so called sundown towns but it also occurred in the low lying Delta lands of eastern Arkansas where cotton was king and where masked mobs of landless whitecappers and nightriders regularly dealt terror and murder to black sharecroppers

Racial Cleansing in Arkansas 1883 1924 Politics Land Labor and Criminality by Guy Lancaster is the first book to examine the phenomenon of racial cleansing within the context of one particular state illustrating how violence relates to geography and economic development Lancaster analyzes the wholesale expulsion of African Americans and the emergence of sundown towns together with a survey of more limited deportations including those with blatant political goals as well as vigilante violence The book has broader implications not only for the study of Southern and American history but also for a deeper understanding of ethnic and racial conflict local politics and labor history

Eliminationists David Neiwert, 2016-01-20 *The Eliminationists* describes the malignant influence of right wing hate talk on the American conservative movement Tracing much of this vitriol to the dank corners of the para fascist right award winning reporter David Neiwert documents persistent ideas and rhetoric that champion the elimination of opposition groups As a result of this hateful discourse Neiwert argues the broader conservative movement has metastasized into something not truly conservative but decidedly right wing and potentially dangerous By tapping into the eliminationism latent in the American psyche the mainstream conservative movement has emboldened groups that have inhabited the fringes of the far right for decades With the Obama victory their voices may once again raise the specter of deadly domestic terrorism that characterized the far Right in the 1990s How well Americans face this challenge will depend on how strongly we repudiate the politics of hate and repair the damage it has wrought

racism in schools It emphasizes inclusive anti racist teaching curriculum development and sustaining this work It calls on white teachers to examine biases and work towards a just world with support and love *Controllable Artificial Intelligence and the Future of Law* Hugo Luz dos Santos,2025-11-08 This book broaches the newly crafted concept of algorithmic dictatorship that draws on a plethora of human biases that creep into the algorithm and feeds into an automated decision that comes to the expense of citizens lives freedoms health property fair lending and credit scoring This book sheds a keen light on the slew of reasons in view of which artificial intelligence should be both interpretable and controllable as opposed to merely explainable The reason for that is straightforward the skewed data baked into the bigoted algorithms machine biases spawns harrowing effects with which criminal justice has been grappling for a long haul drawn out Tallyingly and perhaps unsurprisingly law enforcement evinces biases that run along both gender and race lines No surprise springs from the fact that computer generated algorithms that propel predictive policing are often flagged as tools whereby racial discrimination abounds It should not therefore be pegged as flabbergasting that this sort of shady algorithmic governance is a byproduct of a grueling algorithmic dictatorship that is shaping up to crumble the foundations of Rule of Law upon which stands modern societies This is one of the key takeaways of this book Disturbingly enough brain computer interfaces are poised to be converted into shady tools to collate gauge thoughts emotions sentiments and crime related information that would be otherwise inaccessible to the governments rogue nations or unscrupulous actors prying eyes Much to our dismay an eerily dystopian world is unfolding before our very eyes This is the gist of transhumanism a byproduct of convolutional neural networks that revolve around deep learning genetic algorithms that will overhaul the current legal landscape beyond recognition This book charts the path ahead as to draw set in stone boundaries to prevent jurisdictions from careening into the chaos of genetic plutocracy that should be wished away **Fighting Invisibility** Monica Mong Trieu,2023-03-17 In *Fighting Invisibility* Monica Mong Trieu argues that we must consider the role of physical and symbolic space to fully understand the nuances of Asian American racialization By doing this we face questions such as historically who has represented Asian America Who gets to represent Asian America This book shifts the primary focus to Midwest Asian America to disrupt and expand beyond the existing privileged narratives in United States and Asian American history Drawing from in depth interviews census data and cultural productions from Asian Americans in Ohio Wisconsin Nebraska Minnesota Illinois Iowa Indiana and Michigan this interdisciplinary research examines how post 1950s Midwest Asian Americans navigate identity and belonging racism educational settings resources within co ethnic communities and pan ethnic cultural community Their experiences and life narratives are heavily framed by three pervasive themes of spatially defined isolation invisibility and racialized visibility *Fighting Invisibility* makes an important contribution to racialization literature while also highlighting the necessity to further expand the scope of Asian American history telling and knowledge production **Knowledge and Entrepreneurship in Public Policy** Christopher J. Coyne,Abigail R. Hall,Eileen

Norcross,2023-11-17 Understanding entrepreneurship as alertness to potential profit opportunities and the activities involved with bringing those opportunities to life and public policy as laws regulations and activities of government this volume analyzes the intersection of the two to show how public policy influences entrepreneurship Using a mix of theoretical and applied research the contributors argue that policies which incentivize productive entrepreneurship will advance economic well being but that the passage of such policies depends in large part on the availability and usage of economic knowledge by policymakers If policymakers lack the relevant economic knowledge to achieve their desired outcomes policies will be ineffective in incentivizing productive entrepreneurship *Cities, Change, and Conflict* Nancy Kleniewski,Alexander R.
