musicians From pioneers such as Cliff Bruner and Eldon Shamblin to current performers such as Johnny Gimble the musicians make important connections between the big band swing jazz they heard on the radio and the western swing they created and played across the Southwest from Texas to California From this first hand testimony Boyd re creates the world of western swing the dance halls recording studios and live radio shows that broadcast the music to an enthusiastic listening audience Although the performers typically came from the same rural roots that nurtured country music their words make it clear that they considered themselves neither hillbillies nor country pickers but jazz musicians whose performance approach and repertory were no different from those of mainstream jazz This important aspect of the western swing story has never been told before
