## What Is Sight Senses Close Up:

**What is sight?** Molly Aloian, 2018-01-18 Read Along or Enhanced eBook This book investigates how our sense of sight works how it helps keep us safe and how we can take care of our sense of sight Interesting information and vivid images also explain how some insects and other animals see the world differently

*A Sense of Place* Annie Davy, 2019-02-07 Tried and tested accessible strategies that support the wellbeing and learning journey of children through mindfulness with a focus on learning outdoors and connecting with the world Being outside and connecting with nature is key to young children's learning and wellbeing especially in a busy fast changing and digitalised world Outdoors children can more easily connect to their bodies and learn about themselves and others and how to be in the world They use their senses to explore understand and become mindful of the earth and the people around them But how can Early Years practitioners best support young children as they engage with nature while also passing on the values about the future of the planet *A Sense of Place* is an easily accessible guide that will make outdoor learning more interesting and fun while also supporting children's development of resilience and resourcefulness so that they can survive and thrive in the world as they grow

*Brand esSense* Neil Gains, 2013-11-03 Branding has reached a new frontier In the future brands will have to appeal to more than one or two of the classic five senses Branding expert Neil Gains shows both the science and the practical applications of how this can be done and links symbolism and storytelling to sensory experience in brand marketing Drawing on the latest research and design thinking *Brand esSense* shows how brands can link storytelling archetypes and symbolism to customer experience to build a multi sense phenomenon This groundbreaking book provides innovative branding tools for evaluating where a brand is on the sensory and storytelling scale analyzing its potential and giving it a clear pathway to optimizing its unique sensory appeal

*The Switch Image* Lorenz Engell, 2021-04-22 Television is the most powerful system of images in the late 20th and early 21st centuries Nonetheless TV has attained only little philosophical attention so far especially compared to other visual media such as film This book looks at TV as what happens on the screen and beyond it which is mainly the operation of switching images It therefore proposes a new definition of TV as the first picture that can be switched on off and over which stresses that TV is more tactile than visual Through the operation of switching TV figures the world from within and as the course of its figuration This is grasped here by the term of ontography Through the ongoing interlacing and bridging of TV 1 0 the image is being switched and TV 2 0 the image is a switch TV exponentially increases the production and circulation of images It transforms the world and itself from an analogue state to a digital one and from central perspectivism to pluri perspective In terms of time through switching and the switch it develops and reworks new temporal orderings such as instantaneity synchronicity flow and seriality TV makes its own history In space it creates a mediasphere as its habitat and hence new forms of being in the world of proximity and distance and scale Anthropologically it works on what a subject and an object is on what makes the human being and ontographically how it is possible that there
