

The background of the book cover features a complex, abstract graphic of celestial bodies and orbits. On the left, a large, glowing orange and yellow sphere, representing the Sun, is partially visible within a multi-layered elliptical ring. The right side of the image is dominated by a large, multi-layered elliptical ring in shades of red, orange, and yellow, which tapers to a point. This point of convergence is where several thin, multi-colored elliptical orbits intersect, representing the paths of planets and other celestial bodies. The overall effect is a dynamic, swirling representation of the solar system's structure.
