of GitHub and the open source statistical language R are built in throughout the book

Key Features

- Extensive code examples
- Ethics integrated throughout
- Reproducibility integrated throughout
- Focus on data gathering messy data and cleaning data
- Extensive formative assessment throughout

Podcasting in a Platform Age John L. Sullivan, 2024-01-25

Podcasting in a Platform Age explores the transition underway in podcasting by considering how the influx of legacy and new media interest in the medium is injecting professional and corporate logics into what had been largely an amateur media form. Many of the most high profile podcasts today however are produced by highly skilled media professionals some of whom are employees of media corporations. Legacy radio and new media platform giants like Google, Apple, Amazon and Spotify are also making big and expensive moves in the medium by acquiring content producers and hosting platforms. This book focuses on three major aspects of this transformation: formalization, professionalization and monetization. Through a close read of online and press discourse, analysis of podcasts themselves, participant observations at podcast trade shows and conventions and interviews with industry professionals and individual podcasters, John Sullivan outlines how the efforts of industry players to transform podcasting into a profitable medium are beginning to challenge the very definition of podcasting itself.

Reviews in Recommender Systems: 2022 Dominik Kowald, Deqing Yang, Emanuel Lacić, 2024-04-10

Frontiers in Big Data is delighted to present the Reviews in Recommender Systems series of article collections. Reviews in Recommender Systems will publish high quality scholarly review papers on key topics in recommender systems and their applications in our everyday lives: in search engines, online retail, news, entertainment, travel, social networks and much more. It aims to highlight recent advances in the field whilst emphasizing important directions and new possibilities for future inquiries. We anticipate the research presented will promote discussion in the Big Data community that will translate to best practice applications in further research, industry, real world implementations, public health and policy settings.

The Lean Tech Manifesto: Learn the Secrets of Tech Leaders to Grasp the Full Benefits of Agile at Scale Fabrice Bernhardt, Benoît Charles-Lavauzelle, 2024-05-07

The powerful new method for streamlining digital product development, accelerating delivery and scaling innovation, all in just one year. Whether you're a production manager or CEO, The Lean Tech Manifesto provides what you need to dramatically improve operations and get ahead of the competition. This groundbreaking book, written by the celebrated leaders of Theodo, shows how to combine Lean strategy with the speed and scale of digital for optimal efficiency. You'll learn how to:

- Create a culture of problem solving and knowledge sharing.
- Scale up even when faced by a major increase in demand.
- Deploy faster implementation.
- Measure client satisfaction.
- Improve teamwork between product devs and ops.
- Recruit good developers and keep them.

Fabrice and Benoît are famous for being among the first tech founders to successfully put Lean methodology to practical use, and their company is a Deloitte Fast 50 company and the FT 1000 list. The Lean Tech Manifesto is a major step toward solving your greatest challenge: getting ahead of the competition without the need for massive investments in staff and resources, which always result in higher levels of organizational confusion and waste.
