Tesis Sobre Feuerbach:

Los conceptos elementales del materialismo histórico Marta Harnecker, 1985 Las cualidades pedagógicas de este libro se ahan al mismo ritmo de exponer con claridad y rigor científico la teoría científica de la historia y al mismo ritmo de presentar las tesis de los pensadores clásicos de manera concisa al estudiante En torno a la obra de Adolfo Sánchez Vázquez Gabriel Vargas Lozano, 1995

Ensayos sobre teoría sociológica Héspére Eduardo Pérez Rivera, 2002 Razón de ser de los clásicos Actualidad de los clásicos La concepción de la vida religiosa en Durkheim una crítica Fernando Uricoechea Religión primitiva origen y cambio La religión lo religioso y lo sagrado La crítica del animismo y el naturismo La ecuación de conocimiento creencias y valores en Durkheim La emergencia de lo sagrado Critical Marxism in Mexico Stefan Gandler, 2015-09-01 In Critical Marxism in Mexico Stefan Gandler coming from the tradition of the Frankfurt School reveals the contributions that Adolfo Sánchez Vázquez and Bolívar Echeverría have made to universal thought While in recent times Latin America has taken its distance from global power centers and reorganized its political and economic relations in philosophy the same tendency is barely visible Critical Marxism in Mexico is a contribution to the reorganization of international philosophical discussion with Critical Theory as the point of departure Despite having studied in Europe where philosophical Eurocentrism remains virulent Gandler opens his eyes to another tradition of modernity and offers an account of the life and philosophy of Adolfo Sánchez Vázquez and Bolívar Echeverría former senior faculty members at the Universidad Nacional Autónoma de México UNAM

Theses on Feuerbach Karl Marx, 2024-05-09 Written in the spring of 1845 and first published posthumously by Engels in 1888 as an appendix to Ludwig Feuerbach and the End of Classical German Philosophy the Theses on Feuerbach comprise eleven terse aphoristic notes jotted by Marx as a private clarification of his break with both idealist and contemplative materialist philosophy Though brief the text marks a decisive epistemological and political shift from viewing knowledge as a passive reflection of reality to understanding it as arising through active sensuous human practice The final thesis asserting that philosophers have only interpreted the world in various ways the point is to change it crystallizes the entire trajectory of Marx's later work and serves as a concise rejection of the speculative detachment he associated with both Hegelian dialectics and Feuerbach's humanism The core of the text critiques Feuerbach for remaining bound to an abstract conception of man and for failing to grasp the social and historical conditions through which consciousness is formed For Marx human essence is not an abstraction inherent in each individual but the ensemble of social relations and truth must be tested not by internal coherence but through transformative praxis Though presented without argument or elaboration the theses are dense with implication and their structure reveals a subterranean metaphysical struggle one in which thought must cease to mirror being and instead enter the world as a force within it This document though fragmentary and never intended for publication is among the most programmatic declarations of historical materialism announcing a philosophy no longer content to contemplate alienation but to abolish it This modern Critical Reader's Edition includes an illuminating afterword tracing

Marx's intellectual relationships with revolutionary thinkers and philosophers including Hegel, Feuerbach, Engels and Ricardo containing unique research into his ideological development and economic metaphysical theories a comprehensive timeline of his life and works a glossary of Marxist terminology and a detailed index of all of Marx's writings. This professional translation renders Marx's dense dialectical prose into modern language to preserve the original force and precision of the text. Combined with the scholarly amplifying material this edition is an indispensable exploration of Marx's classic works and his enduring Hegelian Protestant influence in the political, religious, economic and philosophical spheres.
