*Gynocritics and the Traversals of Women's Writing* Hemant Verma, Ajit Kumar, Rafseena M., 2024-01-11 Discussions on any narrative focusing on the experiences of about and by women have always had differences as well as similarities What makes such varying approaches interesting is the fact that the re-readings and re-presentations of the hegemonic narratives necessitated the significance of feminist approaches which forms the major

focus in the present volume A feminist reading of the current narratives could explain how historically women's rights and roles have been undermined and how the absence of women was never a concern in the male centered narratives Women's writings provide a consciousness that helps individuals consider critically about how differently men and women are dealt With different dimensions brought in through the various scholarly articles on the differential treatment of women in the highly misogynist society the book offers the space for the intellectuals the academic researchers and scholars in the field of literature and humanities to contribute to the development of an egalitarian world

Arthur James Wells, 2009 **L'Amante Anglaise** Gale L. MacLachlan, 1985 *The Musicalization of Fiction* Werner Wolf, 2023-12-11 This volume is a pioneering study in the theory and history of the imitation of music in fiction and constitutes an important contribution to current intermediality research Starting with a comparison of basic similarities and differences between literature and music the study goes on to provide outlines of a general theory of intermediality and its fundamental forms in which a more specialized theory of the musicalization of narrative literature based on contemporary narratology and a typology of the forms of musico literary intermediality are embedded It also addresses the question of how to recognize a musicalized fiction when reading one and why Sterne's *Tristram Shandy* contrary to what has been previously said is not to be regarded as a musicalized fiction In its historical part the study explores forms and functions of experiments with the musicalization of fiction in English literature After a survey of the major preconditions for musicalization the increasing appreciation of music in 18th and 19th century aesthetics and its main causes exemplary fictional texts from romanticism to postmodernism are analyzed Authors interpreted are De Quincey Joyce Woolf A Huxley Beckett Burgess and Josipovici Whilst the limitations of a transposition of music into fiction remain apparent experiments in this field yield valuable insights into mainly a mimetic and formalist aesthetic tendencies in the development of more recent fiction as a whole and also show to what extent traditional conceptions of music continue to influence the use of this medium in literature The volume is of relevance for students and scholars of English comparative and general literature as well as for readers who take an interest in intermediality or interart research
