Ethics of Virtual Reality Michael J. Grabowski, 2024-12-15 In this book Michael Grabowski draws on established theories of ethics to consider critical questions surrounding the growing adoption of virtual reality VR technologies. These questions include who should control and have access to VR, its impact on privacy, its potential for misrepresentation and bias, and how to provide a platform for free expression while mitigating harassment and abuse. Grabowski examines use cases of other digital technologies including social media and artificial intelligence to examine who is helped and harmed by the widespread implementation of VR and how it might transform existing institutions, social relationships and communication. Finally Grabowski forecasts the possible futures of VR and what limits, if any, should be placed on representing the real world or imagining new ones. Scholars of media studies, technology studies, communication and ethics will find this book of particular interest.

Management in a Dynamic Environment Rico Baldegger, 2025-10-30 This open access book provides basic management knowledge in a concise and structured way. Fundamental aspects of management are described based on which a model of the enterprise is outlined. This allows readers to find their way around easily, reflect set new approaches in context and examine them critically. The practical examples, the interpretation questions and the short case studies at the end of each chapter facilitate the transition from theory to practice. Sustainability, corporate responsibility and circular business have been extended for this second edition. Current practical examples have been included, e.g. UBS merger, Rolex, Nestl, Logitech, Netflix, Ferrero and company examples have been updated or replaced. In addition, the company model has been adapted, media have been added as stakeholders and the environmental spheres according to PESTEL have been included. The chapter on corporate culture has been extended with additional models which rely on concepts of leadership style. This textbook has been recommended and developed for university courses in Germany, Austria and Switzerland. In addition, novice and experienced managers will find new inspiration and practical guidance supported by compelling examples.
