The Theological Imperative to Authenticity Christy Capper, 2022-11-04 From a theological viewpoint this book explores the junction between the philosophical existential idea of the authentic self and its cultural appropriation. The text builds on the theology of John Macquarrie and the narrative formation of identity to construct a theological definition of authentic selfhood. It then contrasts this definition with the common idea that authenticity in the moral sense can be used to justify any action. The author argues that this is not genuine authenticity. Instead they consider that authenticity rests upon loyalty to something greater than oneself and for Christians this is the character of the God in whose image they are created and are being formed.

This book is illuminating reading for students and scholars of theological anthropology, pastoral theology, ethics and moral philosophy.
