**Judicial institutionalization of integration processes** Ricardo Caichiolo, 2016-09-07 The focus of this book is the judicial institutionalization of integration processes through the development of dispute settlement mechanisms more specifically in the Common Market of the South MERCOSUR to date the most important regional bloc in Latin America The bloc has been in existence since 1991 and has positioned itself as one of the potential regional blocs for trade and investment while becoming one of the important actors in the international community However its achievements have been tainted by the gaps and problems attached to the core foundation of the regional bloc MERCOSUR has been suffering or experiencing internal disputes and disunity due to its complex and low institutionalization a situation which can be seen as being paradoxical Its current Dispute Settlement Mechanism is subject to uncertainty and doubt since its own framework is also under internal and external criticism There has been a series of protocols made in order to tackle the problems of the DSM and to further fix the problems that hinder the cooperation as well as the productivity of MERCOSUR s intra organisation all guided by intergovernmental decision making As such this book seeks to tackle the concept of regionalism and the possible models which have been used or have influenced the establishment of MERCOSUR while discussing the different aspects and developments of each intra organisation This is done in order to evaluate the nature of the problem and future developments that could take place The book also focuses on the prevalence of politicization in MERCOSUR and the pre eminence of Presidential Diplomacy over the path of regional integration which influence the DSM of MERCOSUR and possible developments that might occur in the near future
