Industrial and Urban Growth Policies at the Sub-National, National, and Global Levels Benna, Umar G., 2019-02-19 Recent global shifts in population have led to the fast urbanization of Africa. For Africa and the developing world, choosing the right policy strategies, processes, and tools are essential to turning urban centers into engines of industry and economic prosperity. *Industrial and Urban Growth Policies at the Sub-National, National, and Global Levels* is a pivotal reference source that examines current and evolving conditions of industrial and urban policies and their relationships around the world, especially between developed and developing economies. While highlighting topics such as the Fourth Industrial Revolution, urban policy, and global common good, this publication seeks to deepen and broaden the understanding of transformation in industrial development and responses to emerging urbanization processes. This book is ideally designed for industrial planners, entrepreneurs, urban development authorities, policymakers, academicians, researchers, and students.

Coffee House to Cyber Market Elizabeth Hennessy, 2001 Coffee House to Cyber Market is an illustrated history of the London Stock Exchange, one of the City's most important financial institutions, specially written to commemorate its bicentenary in 2001. Beginning with its origins in London's coffee houses and the founding of the first permanent Stock Exchange building in Capel Court, the book charts the major events in the history of the Exchange, the London stock market, and the firms and characters which composed it. Episodes such as the railway mania of the 1850s, the mining boom which preceded the Boer War, the fortunes of the Stock Exchange in two world wars, and Big Bang and the internet revolution of recent times are brought to life with a wealth of anecdotes and contemporary descriptions. The book is illustrated with a rich collection of images from the Exchange's own archives, portraits, newspaper
