**Righteousness, Volume 2** Jeffrey J. Niehaus, 2023-10-19 The second volume of this three volume work exegetes and comments on every occurrence of the Hebrew terms for righteousness in the Old Testament It begins with a discussion of apperception and deductive method and concludes with an afterword on righteousness and ontology The ontological argument affirms that God s aseity is the foundation of righteousness in the Bible and thus of all true righteousness Righteousness is being true to God and God is always true to himself including in his self existence Other terms in the righteous word group such as righteous and justify are considered along with the important word pair righteousness and justice in semantic domain studies in the first three chapters Semantic domain studies show that terms like upright blameless and good are qualifiers of righteousness Whatever the flavor or nuance of the terms for righteousness may be in different OT contexts however study shows that the underlying sense of righteousness is conformity to God s Being and doing and the same is true of the righteousness of God **How to Judge a Book by its Cover** Kate Cuthbert, 2025-12-10 Combining both

an industry and research focus *How to Judge a Book by its Cover* not only judges books by their covers but provides a methodology for others to do the same Despite book titles and book covers having been identified defined and discussed as paratexts beginning first with Gérard Genette and by many paratextual and publishing scholars since there is currently no methodology or defined vocabulary for the analysis and discussion of their creation the intent and effect of their structure and their constituent elements As these paratexts become further and further removed from their texts then like texts they can and should be studied especially as literature is inextricably embedded in industrial and social currents *How to Judge a Book by its Cover* looks more deeply at book covers and book titles two paratexts that are of broad academic interest but crucial to the placement marketing and commerce of the publishing industry Bringing together paratextual studies publishing studies and media studies visual design analysis and the world of advertising this work marries academic rigour with industry experience to first define the role that book covers and book titles play and then articulate a methodology for their analysis By identifying intent behind book covers and book titles defining the elements that may be achieved in this intent and providing opportunities to measure their success both scholars and industry professionals will have a clear and robust vocabulary in discussions of these key marketing paratexts This book can be used for students and researchers who are interested in media studies paratextual studies publishing internet studies postcolonial studies and popular fiction studies
