 overcrowded and short staffed with a limited number of available hospital beds It is increasingly hard for emergency
 departments and their staff to provide the necessary level of care for medical patients Caring for people with psychiatric
 disabilities raises different issues and calls on different skills In Emergency Department Treatment of the Psychiatric Patient
 Dr Stefan uses research surveys and statutory and litigation materials to examine problems with emergency department care
 for clients with psychiatric disorders She relies on interviews with emergency department nurses doctors and psychiatrists as
 well as surveys of people with psychiatric disabilities to present the perspectives of both the individuals seeking treatment
 and those providing it This eye opening book explores the structural pressures on emergency departments and identifies the
 burdens and conflicts that undermine their efforts to provide compassionate care to people in psychiatric crisis In addition to
 presenting a new analysis of the source of these problems Dr Stefan also suggests an array of alternatives to emergency
