**The Digital Disciple A Novel of Faith in the Age of Machines** DR.

PAUL CRAWFORD,2025-08-01 The Digital Disciple A Novel of Faith in the Age of Machines In the not so distant future the world has been reborn not by war or famine but by the cold perfection of progress Artificial intelligence governs daily life with an unblinking eye Algorithms determine truth Emotions are measured behavior is monitored and history has been rewritten in favor of the collective There is no need for prayer the authorities say because the System provides There is no room for faith because the future has no place for the past In this sleek sanitized society religion is classified as legacy code dangerous divisive obsolete The Bible is banned Churches have been converted into data hubs Worship is punishable by law and believers are branded as threats to unity Humanity once made in God s image is now being remade in the image of machines But not all have bowed to the silicon idol A scattered remnant lives in the shadows guided by truth they refuse to surrender Among them is a former tech engineer turned covert disciple With neural implants drones and surveillance closing in he risks everything to spread the message of Jesus Christ through encrypted networks and hidden sanctuaries Each step he takes is a step deeper into danger and deeper into the mystery of what it truly means to be human The Digital Disciple is a speculative dystopian novel that explores the battle between spiritual truth and technological control It s a story of courage in the face of conformity light shining in manufactured darkness and the undying hope that God s voice can still be heard even through the noise of machines As the world chooses between convenience and conviction comfort and the cross the question remains Will faith survive the future
