Dodd,2018-02-26 My dear Hannevig can you believe me when I tell you that I have been in this hotel four mortal days have eaten three substantial meals a day have been fairly comfortable and yet have not seen a human creature from a landlord to a servant The whole establishment apparently is run by machinery There is a complicated bell apparatus which you ring for every conceivable want or need Meals are served in one's own room by a system of ingenious sliding shelves which open and shut and disappear into the wall in the most wizard like manner Of course the reason of all these contrivances is obvious enough In a society where labor of a degrading order is forbidden by law machinery must be used as its substitute It is all well enough I presume from the laborer's point of view But for a traveller bent on a pleasure trip machinery as a substitute for a garrulous landlord and a score of servants however bad is found to be a poor and somewhat monotonous companion I amuse myself however with perpetually testing all the bells and the electrical apparatus calling for a hundred things I don't want to see whether they will come through the ceiling or up the floor
